All The World's A Stage

Prologue - All the World's a Stage

With a similar feeling of excitement when the curtain rises in the theatre, an audience is waiting when each individual ventures into the world. Each person's approach at his entrance is unique; the strategies range from quiet tentativeness to bold fervor. The first role we play is of a helpless and often demanding baby, and as we grow older, we experience some exciting and frightening role changes. Our accumulated experiences alter our characters, making them more complex. We are in a constant quest for the identity most suitable for ourselves, experimenting with one role and then another just as an actor will try to play different characters to see which type he feels

most comfortable as. In school we attempt at being leaders or followers or even both by joining clubs, participating in sports, and challenging ourselves academically to discover where our skills and interests are which will eventually be used to determine the roles that we will play. As on the stage of a live theatre, any mistakes we make can not be erased, but the stage of the world contains many continuous interwoven stories that are written only as events occur; therefore, we have more freedom and what will happen is often a mystery. In this book, parts of your story and some of your roles have been recorded so that you may be your own audience.

Above: Who's who? If the mysterious face behind the curtain of hair is revealed, two mirror images will be seen. Shawna and Kelley Stein are identical twins, but their differences in character belie the illusion of uniformity.

Top Left: Trudging through the halls, Chris Dolhaniuk looks bewildered while Harold Semenuk is amused by their confrontation with the sudden flash of light.

Left: Will you hurry it up? While rummaging through what appears to be a sickingly meticulous locker, Pam Bowen bursts into laughter. The reason for this: our photographer is taking forever to snap the picture!

Showtime

"The whining schoolboy, with his satchel/ And shining morning face, creeping like a snail/ Unwilling to school". Sound familiar? Like Shakespeare's "schoolboy" (no offense to the female population - take it as a universal term), all of us know the agony of crawling out of bed after pulling an all-nighter and dragging ourselves to the dreaded place called school. But, wait! There's the proverbial silver-lining in this situation...our life out of class!

Lunch hour is that blessed time between classes when you either go to the mall or take part in the diverting activities planned by our renowned student council. I

mean, you can't squish twenty-four people into a bag or mutilate pumpkins with sharp instruments of torture at home! You also have to remember those huge social gatherings in the gym such as the Pep Rally and the Assembly where you meet new people like John Alston, a motivational speaker. Let's not forget the best holiday of the year, Christmas, when M.E. has activities galore. You have the fantastic Snowflake Festival, the ever popular Candy Grams, room decorating which makes teachers become vicious competitive creatures, and the best event of all - Christmas hampers. If you're still looking for something to do,

clubs and sports can cure your problem, no questions asked. From Students' Council where our future PM may dwell to "Jeopardy", our world's future nuclear physicists, and from water polo to football, M.E. will always keep you busy. In short, when you slither out of bed in the mornings, think of things other than classes and teachers. Think about the activities and remember to enjoy student life!

“

"It's nice here (at M.E.) ... the atmosphere...you can make a lot of friends."
- Ricky Sahota (Gr. 10)

Auditions

Back to school! With it comes lockers, new teachers, lost busses, and registration, walking into the large gym and living bombarded by table after table and line-ups that go on until the end of time.

On August 24, all M.E.L. students were "herded" into the gym to register. Because of the change from arena scheduling to computer scheduling, many grade 11's and 12's were eager to express their opinions on the new procedure. "I think we should have a choice," said Shawna Steflud. Daniell Salahub agreed and added that, "it should also be a privilege to arrange your own timetable". Cutting through the opinions was Constable Kristiansen who had a great time hollering out the names of the unfortunate people who had forgotten to sign their I.D. cards.

Among all of this were the new grade tens who possessed different views on registration and attending a new school. The consensus was that the line-ups were too long and the procedure was a little confusing. Fortunately, the volunteers and Students' Council members helped to make everything less painful by doing all the hard work.

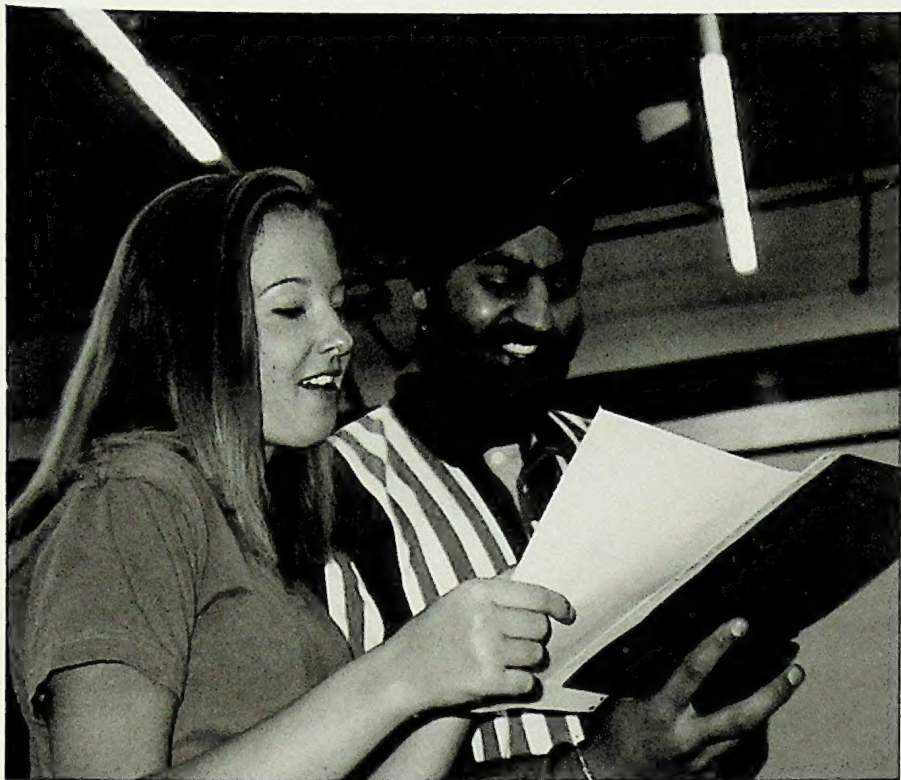

Above it all were the grade twelves. "We're the cream of the crop," said Fiona Foo. "It's the most arousing thing." However arousing it may be, it is just the rehearsal before the performance!

Top Left: "No, I told you my name is Wilson Quan, not Eccabob Bubbaloosh."

Top Right: He even makes sure the registration fees are paid on time! Constable Kristiansen is always on duty.

Right: Cecilia Wong and Dan Ozegovic plot on how to spend Mr. Bereton's lost credit card.

Top Left: Amarjit Panesar asks Dana Dagel, "How did you get Basket Weaving 30 and I didn't?"

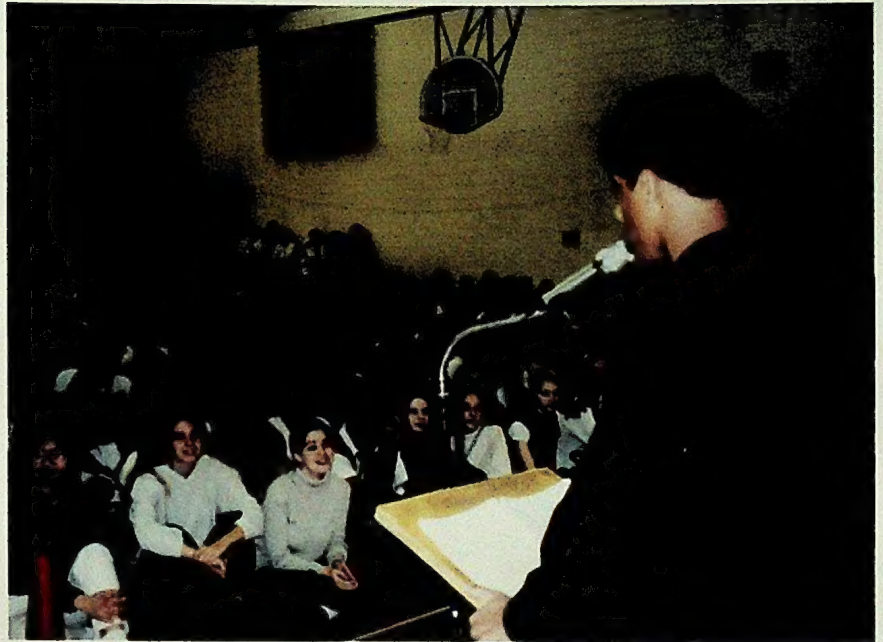

Left: Leanne Sprake never expected her picture to be in the yearbook..well, SURPRISE! SURPRISE!

Top Right: Tim Shew, Stephen Paholek, and Sherry Houle wonder why their I.D. pictures never look like they want them to.

Above: No wonder Crystal Cromwell, Brea Chouinard, and Debra Boyko can't work the radio. Where have you heard of a gym with a "plug-in" in the middle?

Cast Party

This year, M.E. LaZerte's traditional back-to-school pep rally was held. This was a rally to display "old and new". Traditionally, a pep rally is used to raise school spirit to amounts unheard of, and like every year we used this time to bid farewell (sort of) to our Senior Boys Football team as they were about to leave for El Camino, California to play a Canada-USA friendly. Now with the new, M.E.L.'s unique "Step Team" performed a exuberant display of talent and rhythm which boosted our spirits to another level. After our rhythmic dancers concluded their awe-inspiring dance extravaganza, we settled down and carefully listened to a general yet mildly humorous speech of how the control of the school depends on us by Biju Thomas.

Top Right: Biju Thomas addresses his faithful followers.

Above: The crowd looks enthusiastic as they await the arrival of LaZerte's unique Step Team.

Right: Veda Maharajh's beautiful voice won the audience's admiration as her strong, clear notes sounded.

Those Little Buggers

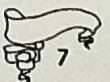

At the beginning of the school year on September 17, twenty-four Voyageurs participated in the Capital Raceway High School Drags Bug Jam competition and squished their way to victory. The team, the "LaZerte Sardines", became much closer to each other in the time period of half an hour than they ever would. After two practice runs, it was time for the real thing. Led by the team captain, Wayne Chow, all the competitors piled themselves into the Volkswagen Beetle. The competition was a fun and exciting way to raise money for the school. On October 27, Gord Craig and Ronda Porpwich from Capital Raceway, and Gerry Hanna from Pepsi presented Wayne Chow with a team picture and a cheque for \$300 at the assembly which would be used by Students' Council for winning first prize. If you ever need to transport a horde of people in only one car, ask these participants for advice!

Left: What a tight squeeze! Twenty-two people in a tiny car. Yikes!

Top Left: Dion Kelly and Lisa Russell get a breath full of tainted air.

Top Right: Sunita Master looks very comfortable as she is squeezed into position.

Only a Practice Run

A myriad of giants, running and stretching, overflowed the green fields of M.E. LaZerte and into those of John Barnett Elementary on September 3. They were football players from 23 different schools in Alberta. Being athletes, they had no trouble rising early on a Saturday morning; the football jamboree started at 10:00 a.m.

The shrills of whistles and the shouts of encouraging coaches could be heard as the games commenced. This year, M.E. LaZerte played four teams: Wetaskawin, St. Albert, Queen Elizabeth, and Dawson Creek. School spirit and the love of football drew parents and students to the sidelines to watch with anticipation. The M.E.L. players were a little tentative during the first game with Wet-

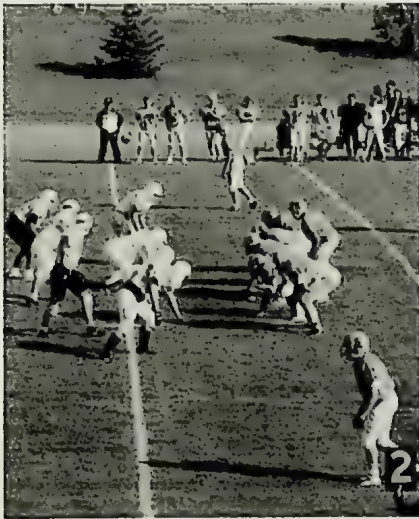

askawin, tying them in one game. Davik Brooks, a member of the team, explained, "(We had) not enough practice", but by the second game, they were prepared, playing an improved game with St. Albert and drawing excited cheers from both the team members and the spectators. They won two games against St. Albert. Queen Elizabeth proved to be more challenging, and we lost one game to them, but the loyal M.E. LaZerte football fan, Christine Lygo maintained her view: "We have an awesome team!"

Half-way through the day, judgments were already made by some. According to David Brooks, the team's strengths were the defense and the running game, but a different point of view was received from Ceriaco

Quiza, a spectator: "To open, the defense is too open." Some of the players who had played exceptionally well were Cody Gretzan and the team's linebacker, Shawn Smith.

To avoid a line that would stretch a mile long, the teams were scheduled to have lunch at different times. Organized by the Students' Council, a team of hamburger flippers which consisted of students and staff, including the principal, Mrs. Harrison, good naturedly barbecued over a thousand burgers to feed all the coaches and players. Boggles the mind doesn't it?

At 2:00, the fields began to empty. They will again feel the weight of a throng of sweaty giants and of enthusiastic football fans in another year.

Above: The Voyageurs line up, tense with anticipation as they wait for the ball to be passed during their game with Wetaskawin.

Right: OUCH! Minh Trak was injured during the first game with Wetaskawin. Who leaves a football game without a few bumps and bruises?

Left: Do you think it's hot enough? Mr. Myck and students' council member Brea Chouinard were two of the hamburger flippers at the football jamboree. It is amazing how much a person could eat after a few hours of vigorous activity.

Top Right: What is a football game without an audience cheering for the team? Veda Maharajh was one of the enthusiastic spectators at the jamboree.

Above: In football, you must be aggressive like this you see. Mr. Kates, one of the football coaches, is giving some advice to Dean Cardinal, Ryan Khaen, and Mike Horda.

Left: The artful dodger...Brian Ross tries to evade a charging member of the Dawson Creek football team.

Masquerade

All Hollows' Eve...a day when witches gather around a boiling cauldron and celebrate the beginning of a new year...or a day when people dress up and ridicule themselves, depending on your beliefs. Apparently, the students of M.E. LaZerte chose to do the latter, or at least some, namely those who were brave enough to show off their improved selves in the costume contest. The winner? Well, the scariest costume went to Wayne Chow who sported a tight black dress that made him look like a new...shall we say woman? The laundry basket (a.k.a. Crystal Emberley) and the mermaid (a.k.a. Shari Koshman) tied for the title of the most original costumes. Finally, the canoe, Stephania Semeniuk, won a prize for school spirit. The prizes? Bags of chocolate naturally, which are not something witches would find suitable for their Halloween. Perhaps "eye of newt, and toe of frog" would have been better prizes.

Top Right: Stephania Semeniuk showed her school spirit and took one of the top prizes in the costume contest. Her buddy, Crystal Emberley, was also a winner.

Top Left: Zahara Noormahamed, Wayne Chow, and Lynn Ramdater give their sexiest poses for the camera. Wayne took top prize for the scariest costume.

Above: Dayna Serediak and Christine Woolinga as Ragedy Ann and Andy.

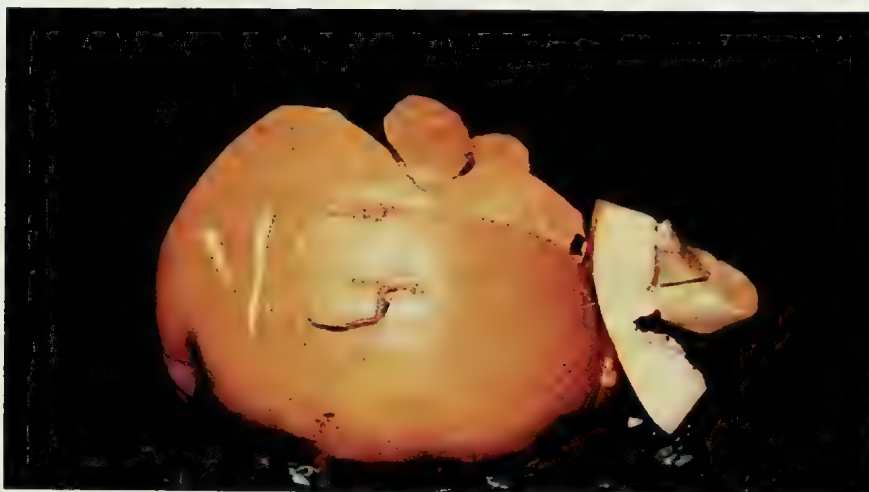

Above: Oksana Bayda, Lana Burger, Lisa Russel, Raiven Hanson, and Sherri Koshman give us their most daring pose. Oh la la!

Smashing Pumpkins

What would Hallowe'en be like without a great pumpkin carving contest? It's an annual tradition and LaZerte students were definitely up for an intense competition of pumpkin mutilation. Four enthusiastic teams faced the challenge. Though all the carvings were wonderful, only one was able to win. Miss Rocco, Mrs. Malayko, and Mrs. Nordheimer had the tough job of choosing the winning pumpkin. After careful consideration the judges decided on the dashing pirate pumpkin who stole the hearts of the judges with his devilish smile and rakish countenance. His creators were Dana Dagel, Jennifer Raaen, Dackie Schur, and Crys Tremblay. All in all the contest was a smash.

Above: Is it school spirit or is it art?

Top Left: And the winners are...Jennifer Raaen, Jackie Schur, Crys Tremblay, Dana Dagel, and the dashing buccanneer pumpkin.

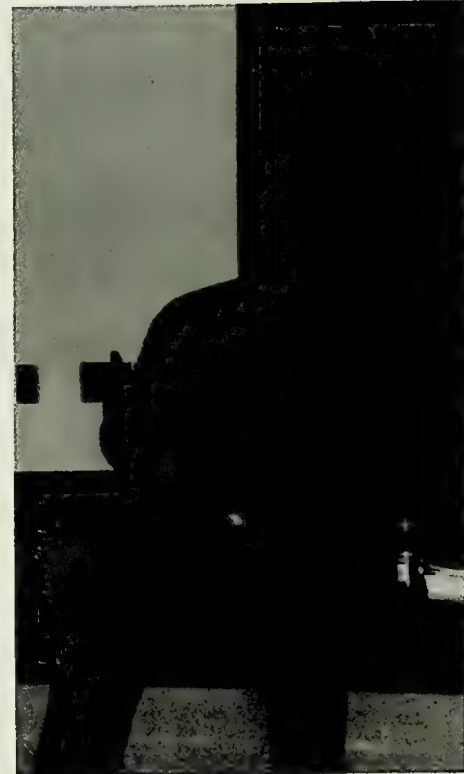

Far Left: Ali Amlani, Cindy Esteves, and Kim Ly dive into the pumpkin in hopes of winning. Also, they received an honourable mention.

Eskis at M.E.

During Reading Week the Edmonton Eskimo Football Club sent players out to M.E. LaZerte to discuss the importance of education. Malvin Hinter, Malik Jackson and Robert Holland spent the lunch hour talking to students about their roles as athletes in the community. Robert Holland stressed the importance of discipline, collaboration, and commitment to achieving one's goals. Without a doubt, these outstanding players all agreed that they were positively influenced by teachers throughout their high school career. Along with receiving pictures and autographs, M.E. LaZerte students were left with a strong parting message... "The decisions young people make now will affect them for the rest of their lives. Stay in School!!"

- by Ms. Smith

PCL Partnership

The partnership's prime objectives are to encourage academic excellence, to promote stay-in-school initiatives and to enhance the skill and knowledge of our students. From the onset, participants took the partnership beyond the surface to include students and staff in a variety of educational opportunities.

Student visitations are a common occurrence at PCL's corporate offices and job sites, and PCL staff are highly visible in school programs, parent evenings and community events. There is an equitable exchange of ideas and energies. From scholarships to mentorships, activities include support of a hot lunch program through transporting meals to neighboring schools and designing and constructing a schoolyard park, complete with a permanent community bulletin board. PCL and MEL citizens work together for a common goal to benefit students and society at large. The partners try to offer students practical application of their learning through field trips and job shadowing. Projects are designed to embody real world challenges within the context of curricular mastery. Skills build toward

literacy and goal attainment. It is expected students review their learning through the eyes of other professions and trades-people to ascertain the interconnectedness of all aspects of education and the working world. The combination of short-term and long-term projects are generated to offer a variety of levels of participation depending upon student interest and available time. These efforts benefit both the greater community and students individually.

Soothing Therapy

Imagine over half the student body of M.E. LaZerte cramped into a small gymnasium with one man lecturing, trying to convey his message to a multitude of young minds. Impossible, you say?

Apparently, LaZerte's guest speaker has performed the impossible. The miracle worker, also known as John Alston, arrived at LaZerte on October 27 to pass on his words of wisdom to the minds of the next generation, namely the grade 10 and 11 students. His powerful presentation has taught us to control our own minds or someone else will control them for us. With his energy and enthusiasm, Mr. Alston effectively combined the soothing therapy of laughter with the serious knowledge involved in life after school to create a formidable performance. The reason this man was able to hold the audience spell-

bound was mainly due to his innate ability to use ideas that the high school students could relate to best. Drawing upon his experience as a teacher, administrator, and counselor, John Alston is one of America's foremost motivational speakers. He has co-written a book, *Talking With Teens in Turbulent Times*, and he continues to make over 200 presentations a year nation-wide to students, parents, and educators. This amazing man's captivating speech held over one thousand teenagers in rapt attention. John Alston's lasting advice was: "The greatest gift you have is your mind" and "Life is a gift - don't trash it!"

Obviously, John Alston is a legend. Special Thanks to Students' Council for bringing John Alston to us!

The Snowflake Festival was an evening of outstanding mayhem and an expression of every individual ever imaginable. The night started off with the mistresses of ceremony, Amanda Schultz and Stephanie Powell, presenting all the acts with a quirky twist. The collage of actors, singers, dancers, and instrumentalists provided the audience with an exciting evening. Along the way was a variety including the beautiful song stylings of Jenae Rogers, a hilarious twist to "New York, New York" by Sean Horton and Dana Dangel, and "Christmas at Casey House AIDS Hospice" performed by Drama 20. All in all, the evening was psychedelically charged and hey, for the price of two bucks, who could resist?

Above Right: Can we say Mr. Rogers?! The audience cheers with tremendous enthusiasm as the comical Sean Horton appears on stage to perform "New York, New York."

Christmas Cheer

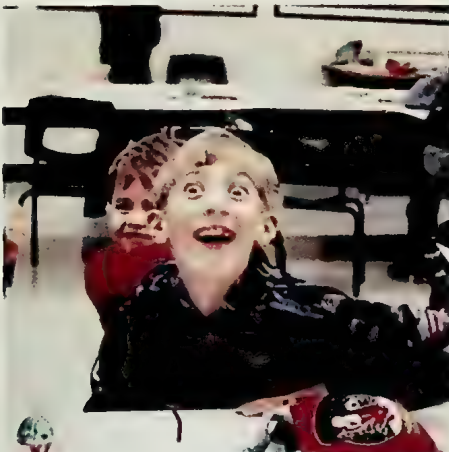

Cookies, paints, and balloons - what more could you ask for at a Christmas Party? The PCL-M.E. LaZerte staff Christmas party gave the families of staff a chance to enjoy these things in our beautifully decorated cafeteria and rotunda. Students' Council, who laboriously organized the event, pulled off an excellent party with a multitude of fun-filled activities - for little kids, that is. Entering a winter wonderland, which unbelievably used to be the cafeteria, children had a choice among the stations of balloon animals, coloring wonderful pictures that would have impressed Micheal-angelo, and decorating sugar cookies. The amount of sugar a kid can consume is amazing! There was also the storytelling station in the beautifully decorated rotunda where everyone listened to and acted out various stories. Our drama class department would have been speechless! After sitting on Santa's lap and singing some traditional Christmas songs, everyone left with the catching Christmas spirit and perhaps a huge quantity of glucose in their blood.

Top Left: I never knew Christmas stories could be so interesting, did you?

Theatre Sports

Fall is definitely the season that reminds us that summer really is over. Days spent basking in the sun are history, and nights spent relaxing underneath the stars are pleasant memories. This season also marks the return to school and unbelievable stress. The race to succeed and perform academic acrobatics with marks in class often sends most students in to a whirlwind of delirium. This is when LaZerte's various sports teams become vital to the well being of young minds. There is an endless variety of fall sports to suit students of all different interests. The hub of our physical education department is always filled with eager and

enthusiastic teachers who make time in their busy schedules to help coach teams and individual students. Scientifically, it has been proven in some obscure magazines that the crashing and banging of metal against metal has a therapeutic effect on stress. It is no wonder that football is such a popular sport with the LaZerte student body. Spiking a ball across the net a few times is also great for the release of pent-up fury over bad test marks for those students who love volleyball. Swimming was available for those who are drawn by the competitive edge of racing to the finish, while the calm relaxing sport

of curling brought many students to the ice rinks. For basketball lovers, it was the challenge of shooting a three pointer which attracted many potential Michael Jordans to the basketball court, and all our weightlifters worked hard to improve their lifts. With all these activities available to help release tension and stress, it is no wonder that LaZerte students are the happiest and brightest students found anywhere!

Players on the Field

The Senior Football team did not have as rewarding a year as some past teams; however, they still managed to have a strong year. They began a week of fun in Oceanside, California, where they played a tough game against the number one ranked team in the San Diego area. The team continued their successful play when they returned, reeling off four straight wins, with thrilling victories over Harry Ainley and Jasper Place. The team finished the regular season in second place, but unfortunately, lost in the semi-finals to MacNally. Although the team was disappointed with the loss, they could still be proud of the performance they put in during the year. With several key members of the team returning next year, the prospects for the '95 team look excellent.

Stadium Performers

Early September found over sixty enthusiastic grade ten and eleven boys competing for twenty-four different positions on our junior football team. Faced with daily practices, thirty-five endured this hectic pace and commitment. For most, the relatively new activity was a very worthwhile and exciting experience in their lives. A 3-4 league record placed our team as a top contender in the city division play-off championships, finishing the season by dropping a close encounter in the finals 13-12. The coaching staff would like to recognize Jason Smith, Grant Feddes, and Bryon Bourne, former

M.E. LaZerte students, who agreed to work along with us and help bring about a successful football season.

Curling

For all curlers attending M.E. LaZerte, this year was vastly different from any other year. Many teams used to use the M.E. LaZerte's curling squads as a stepping "stone" for themselves. Not anymore! Curlers at M.E. have gained quite a bit of respect over a very short time, from opposing teams. This season, both the junior and senior teams hovered around the top spot in their respective divisions. With the guidance of Mr. Pacholik and Mr. Renfree, our teams can easily compete at higher levels of play. Our juniors used training tips and proper maneuvering skills from their beloved coaches, while the senior team used more advanced and complicated shots. Curling is much more than the game people might watch on television. Players must know key terms like "freeze" (which might explain the conditions curlers play in - boy, is it cold!), "raise", "out-turn", and "draw". Curlers must know when to sweep, when not to sweep, how to shoot the right weight, and correctly aim and place the rock. Curling is much more than just a sport...it is a mind-game. Usually, in this game, brain wins over brawn, finesse is key, precision must be 100%, and accuracy must be exact to play successfully.

Above: Now, all those who haven't seen a "sheet" of curling ice, here's the real thing. Of course, Steve Paholek, Scott Pereira, Carly Morrison, and Amarjit Panesar see it all the time.

Top Right: No, there is no pressure on John Hodgkinson given by Angela Reiner and Jarrad Norcutt. It's only the championship winning shot! Like we said, no pressure at all.

Middle Right: Is that the world champion?? No, but it's still a beauty of a shot by Jarrad Norcutt!

Right: Steve Paholek decides that if he can't move the opposing rocks, we're in big trouble!

Pushing the Limits

The Weightlifting Club has had a very active year. At the end of the 1994-95 school term, the club will have hosted seven provincial competitions including both the Alberta Junior and Senior Championships. Fourteen club members competed in the Alberta Junior Championships out of thirty total athletes competing. The club has also hosted two athletic training camps and one coaches' clinic presented by the Alberta Weightlifting Association.

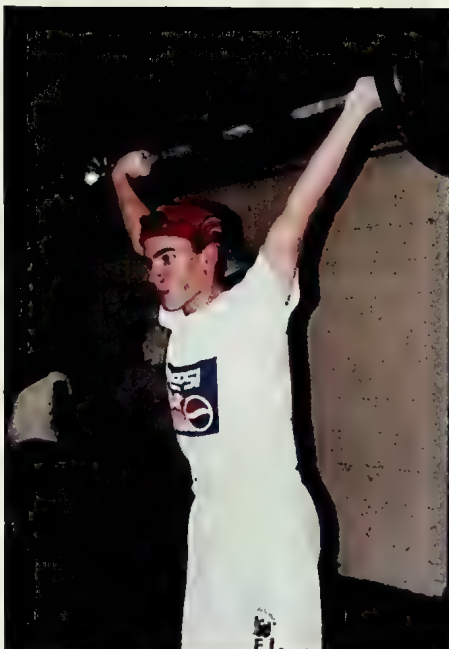

At the Canadian Winter Games in Grande Prairie in February and

March, each province or territory may bring ten boys and five girls as a complete weightlifting team. Four of the girls and seven of the boys on the Alberta team train at M.E. LaZerte.

The M.E.L. facilities are one of the best facilities in Canada for hosting competitions, clinics, and training camps, and we are proud of our partnership with the AWLA.

Club members are currently trying to raise funds for a possible trip to California in October.

Seniors "Set" for Gold

Another chapter of girls' volleyball has been marked with sportsmanship and enthusiasm. The junior girls finished their season with five wins, one loss. They placed fourth in the Round Robin, first in the Devon tournament, making it to the quarter final game with an unexpected loss, and finished in fourth place overall. The senior girls got off to a slow start, but after a terrific

game in the Red Deer tournament, they had a huge winning streak, losing only once to Memorial in the Round Robin playoffs, and placing second for the semi-finals against Jasper Place. After defeating JP by three matches to one, the team advanced to win the gold in a tense city conference final against Memorial.

Top Right: Senior girls: (second row) Kelly Olstad, Jackie Schur, Kelly Krenz, Dion Kelly, Sherri Koshman, Ms. Shelton. (first row) Lana Buerger, Crystal Lam, Robin Patry, Tanya Chan, Christine Lygo, Michelle Sheehy, Deana Patry.

Right: Junior girls: (back row) Dayna Romanick, Crystal Emberley, Jessica Perin, Phalene Featherstone, Crystal Velichka, Kim Shave, Daniell Salahub, Mrs. McIlwraith. (front row) Deanna Harmon, Cheryl Richards, Amanda Engman, Lesa Marshall, Jasebel Chan, Cindy Tran.

Above: Kelly Olstad, Deanna Patry, Jackie Schur, and Robin Patry hone their skills at a practice before a game.

Above Right: "I object to that call!" Crystal Emberley, Cheryl Richards, Dayna Romanick, and Jessica Perin review the game.

Serve, Spike, Volley

Up go the high-flying spikers of M.E.L. and it seems like they never come back down. Although not taking home any gold this year, both the Sr. and Jr. boys showed sportsmanship and school spirit. From the sensational spiking action of Danny Fatal to the spectacular saves by junior Mark Napora, the '94 Voyageur Volleyball'ers were a treat to watch.

Top left: Jr. Boys: (second row) Crystal Lam, Mr. Wong, Wayne Chow, Mark Napora, Theo Parks, Dan Frankie, Gareth Ellis, Ming Yeung, Mr. Kinoshita, Tanya Chan. (first row) Bobby Wong, Kolin Bougsamphank, Jay Lever, Mark Rodych, Andrew Sung, Nick Wong.

The Sr. Boy's Volleyball Team consists of: John Hill, Michael Yassine, Lars Hirschfeld, Wes Vallevand, Danny Fatal, Minh Pham, Stefan Bissani, Greg duManoir, Nguyen Pham, Darren Lashchowski.

Above: Darren Dymichkowsky, Wes Vallevand and Stefan Bissani take a breather on the bench while Mr. Meek takes notes on the game.

"We are the Champions!"

The M.E.L. swim team received rave reviews as they captured first place in the small squad division at the city finals. Among those shining in the spotlight was Cassandra Hodgson, who received a gold medal standing in her 100 metre Freestyle-Novice event. The swim team had an outstanding season from beginning to end. The hard work and discipline of all

the swimmers was greatly rewarded by their first place standing, as well as the fact that they beat the next closest team by 600 points! None of this could have been accomplished without the help of volunteer timers and without the guidance and coaching of Mr. Wright, Mr. Cameron, Mr. Garreck, Cathy Dytiuk, and Janis Billau.

Below: The dedicated coaches: Mr. Cameron, Cathy Dytiuk, Mr. Wright, Mr. Garreck, and Janis Billau.

Top right: (third row) Dan Elheart, Mike Reiner, Kareena Schnabel, Sherri Dixon, Colleen Danforth, David Brooks, Naveed Alam. (second row) Fred Kennedy, Mike Brown, Tegan Gordichuk, Cindy Esteves, Cassandra Hodgson, Jennifer Ash (Captain), Angela Reiner (Captain), Steve Chiakowsky, Ali Taliani (Captain), Shannon Leung, Clara Chu, Chapman Lee. (first row) Pam Bowen, Paula Bennett, Cara Bloomfield, Sherri Baker, Heather Harris, Jerae Rogers, Sherri Koshman, Vicki Leung. Missing: Majin Taliani.

Bottom right: It's the mighty spiderman Fred Kennedy showing off his awesome body. Stand back ladies, he's on his way!

Middle right: Those dedicated volunteers: Crystal Emberley, Stefan Bissani, Tom Penton, Alex Ho, Simon Lau, Dayna Serediak, Shauna Stefiak, Lena Bunjenmeyer, Shawna Atcheson, Patty Esecobar, Dayna Romanick, Nicole Bouman, Dave Barrett, Corina Pargatz, Steve Loomer, Gerred Cloutier, Shawna Detta, Shelby Goitz, Jason Koch, Brad Laurie, Gordon Lu, Simon Lu, Paddy Lu, Mike Tokunaga, Tim Homenuck, Travor Jerome, and Tim Vanduhock.

Mogul-Munching

Another mogul-munching, powder bashing season of ski fun with the M.E. LaZerte Ski Club is over. Our year consisted of weekly Wednesday night trips to Rabbit Hill and three mountain trips. Rabbit Hill trips were curtailed shortly after Christmas due to uncooperative weather; however, we made up for it with three fabulous mountain trips: Sunshine, Marmot Basin, and Lake Louise.

Our December trip to Sunshine was certainly an adventure complete with a two hour "lay-over" in a ditch near Red Deer when our trusty bus broke down. Thank you Constable Kristiansen for jogging back to Red Deer on the highway at six a.m. to get help! The same trip allows us to name Mrs. Tewitz "Queen of Forgetfulness" for leaving four flats of pop in the trunk

of her car at -30 degrees celcius. The club "ski hero" award goes to Mr. Dunwoody for his incredible ease and grace on the slopes. A special thanks, too, to the cliff jumping gang for not breaking their necks!

Marmot Basin in February provided wonderful snow, clear skies, and no crowds (maybe because it was the coldest day of the year, but we loved it!). Kyle Wolfe and Curtis Semeniuk should have been thrown off the bus with their video commentary that almost drove Miss Fowke crazy, depriving her of her beauty sleep.

All in all, it was a great season, and we're looking forward to an action packed, powder trenched season next year. Ski ya then!

Act 1

With every new theatrical season, there comes new actors ready to make their spectacular debut on center stage. The M.E.L. stage was ready when the rookie grade 10's arrived. There was much to learn and much to expect out of the coming year. First, there was the timeless problem of making sure you entered the right place for rehearsal. Next came the unnerving obstacle of meeting your fellow actors and ensuring that you did not become too overwhelmed by the vastness of everything around you. Another problem that must be confronted was attempting to hold your own in a group of actors who were a

little more seasoned. Then came that time of the year which initiated everyone into the prestigious elite when all actors transform themselves into giant ants, scurrying around with heavy props - desks - through the maze of halls at LaZerte. Those who survived that week of exams soon realized that they had overcome one of the most challenging obstacles of the season. The shakiness of the first few performances are progressing. All the new actors begin to feel more at ease with the role they have been given to play and some even add new quirks to their maturing characters. They no longer feel as alienated as they did

before, and those seasoned actors become a little less experienced in their eyes. By the closing of the first season, the debut actors are playing different roles in the plays. They look forward to returning to more challenging roles with a greater number of lines and take comfort in the fact that many of the faces they know from their first season will return for the next. These actors have passed their first obstacle and the knowledge they have accumulated will assist them when they are faced with further hurdles in the seasons to come.

“

“Life in grade 10 is 'a big difference' from junior high. You 'started at the top and then went to the bottom'”.

- Emil Tiedemann

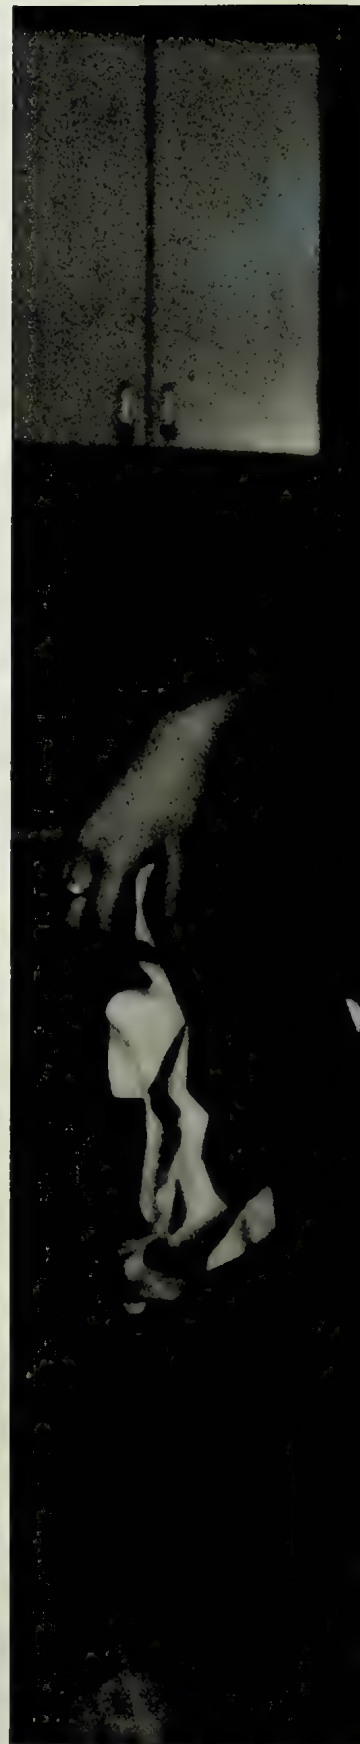

”

Below: Smile for the birdie! Michael Deonarine looks demurely at the camera, hoping the picture won't turn out too badly.

Above: All work and no play has made Susan Ross a very camera-shy person.

Right: Friends till the end! Shaymaa Rahme, Amina Sleiman, and Feda Chaaban take a break to emphasize the close bonds of friendship.

Stage Managers

The faculty is a key element in our school. It is to the school what the directors and stage crew are to theatre. They are our choreographers, our speech therapists, and our mentors who offer advice and approval for the things we do. Teachers are there to help us with any problems we may encounter in the future. Students have often wondered what leads people to become teachers. There are as many answers to that question as there are teachers. Mr. Bererton "found working with young people enjoyable and fulfilling". Ms. Edwards entered the profession because "all my friends were teachers"

and Mr. Myck had this to say about teaching: "You can take little minds and manipulate them. I mean, *inspire* them."

When teachers were asked what it is like to teach, they responded by saying that it is "rewarding and tiring" and "always something unexpected." Every class is different.

Stress is another part of teaching and they must live and deal with it. Some teachers alleviate stress by "working with students". Others feel they are "too young and good looking" to be under so much stress.

When we look at the faculty as a whole, we think of the teachers who make up our

school. The word "faculty" can also mean the ability or power to act, cleverness, or mental aptitude. Mr. Myck, on the other hand "thought it was a place you go to the bathroom. Oh no! That's a facility!" Mr. Bererton defines faculty as something "you lose when you continue to teach with economic cut-backs". He also feels that it is important to keep them or they will lock you up.

Our school's staff is truly exceptional. They continue on after we have left which shows their great dedication.

“Teaching is one of life’s little pleasures.”
- Mr. Myck

Probably no other single event in the school year causes as much excitement and anticipation on the part of students as the annual arrival of the school yearbook. More than any other publication, it is a documentary of the entire school year. Every student is a part of it, and it is destined to become a historical document. For years to come, the yearbook will rekindle fond memories of times past and will serve as a reminder of the best years of your lives.

The theme, "All the World's a Stage", is a fitting one. Through Jaques' character in the passage from *As You Like It*, Shakespeare describes seven stages in our lives. Like Jaques, students at M.E. LaZerte have wonderful opportunities to experiment with a variety of roles, and through trial and error, come to know themselves in relation to the world. Many photographs in this yearbook will serve as reminders of your "...exits and...entrances" upon the "stages" at M.E. LaZerte. Years hence as you will page through your

Portage, I'm sure you will recall the sorrows, the joys and the comic encounters of life with players at LaZerte. It is important to remember that a yearbook has no mysterious genesis. It is the product of endless hours of thought and labour undertaken by dedicated students and staff. To Mrs. Watt and the yearbook staff, our congratulations for an outstanding edition of the yearbook. We know that all the "players" at M.E. LaZerte appreciate the wonderful way in which you captured so many scenes, acts, and plays! For many students the 1994 *Portage* will be your last M.E. LaZerte yearbook. To you, we wish success and happiness in all future endeavours. To our players who will be returning to M.E. LaZerte in September, have a great summer. We look forward to creating new scenes with you in the fall.

Work in Progress

Academics is an important part of M.E. LaZerte which not only includes the core subjects, but also such courses as performing arts and modern languages. The annual trips to Europe are quite an opportunity for young adults who may never have the chance to travel there later. Many of these options will open doors in the future, along with experiences and knowledge. The academic awards are given each year at M.E. for those students who have performed well in their courses. These awards range from honors for those with an average of eighty percent or more in the top twenty-five credits, to athletic awards

for outstanding athletes. The achievements in academics, that so many strive for bring them what some may never have, like knowledge of band music and French linguistics. The countless productions of the performing arts and drama groups exhibit the exquisite styles of performances and talents that are truly M.E.'s own. Starting from the very first performance, the two groups are destined to bring tears of laughter to the audience, drawing on the audience's emotions and experiences to create memorable productions. The sweet sounds of melody and the evident talent of the students at M.E.'s musical soirees are also a source of pride to all

of us. Anyone can join many of these academic activities, so no sympathy should be felt for those who later realize what they could have brought them.

Academics may give you more opportunities to secure your ambitions. The vast selection of activities allows your needs and wants to be satisfied. If you're into music, join the band; if you're into acting, take drama. Nobody needs to walk away unsatisfied with M.E.'s wide variety of organizations in academics.

“

Bamfield Trip

From falls down hills, in mud, down ramps, and off buses, to flat tires and crazy drivers, it all started in Port Alberni. The first morning was eventful for three students whose encounter with National Geographic made them late for the Ferry. Tweak, tweak! Then it was to Bamfield, the place with the very steep hills, Cardiac Hill was a killer, but Tara made a name for the first hill we'd encountered, Triple-Bypass Hill! Classes were taught and trips on the ocean taken, some of us had one more trip than others! Many of us had more classes than Mr. Auton! Bamfield was the most fun, hanging heads overboard, late nights listening to strange outbursts, mud wrestling with our peers, charades, ghosts, and a favorite, the chili. We worked on crafts, dredged the ocean, looked at plankton, hiked beaches, climbed rocks, collected shells and got water in

our boots. The gear was nifty, yellow rainsuits that we were proud to wear. We then left for a relaxing night in Victoria, after a long, dusty bus ride. It was great, even if all the stores were closed! The best memory for us must be our theme song, "Sittin' on My La La". All in all the Bamfield trip was a lot of fun.

Top: Ms. Smith, Mr. Auton, Tara Pretula, Candice Bandura, Katrina Bone, Stefania Semeniuk, Amber Slade, Kelli Billenue, Albert Ngui, Jen Raaen, Daryl Swanson, Jon Lee, Erin Unterschute, Cindy Esteves, Nicole Mork, Carolyn Leung, and Tricia Aksenchuk.

Far Right: Kelli, Tara, Stef, Amber, Jon and Mr. Auton stand against a very old tree on one of our many stops, Cathedral Grove.

Right: An excited explorer handles one of the many creatures caught on our dredge, the rat fish.

Bottom: Eleven crew members clamber over the rocks in a train-like fashion on one of many hikes at Bamfield.

Top left: Wayne Chow or Mariah Carey? You decide! (Remember, Wayne is a guy's name!)

Bottom left: While the teachers of Student Council demand RE-SPECT, Biju Thomas would rather demand being taken off stage.

Lyp Dip

This year's lyp sync competition, held in the lecture theatre, was a great success. Over eight entries competed against each other. Groups and band skipped their lunches to win the prize, thirty dollars, raised by Student Council. Third place was received by Wayne Chow (who

fooled even the clever eyes of the judges), who portrayed Mariah Carey. Second place went to the Cutie 5, led by Carey Paholek, and first prize went to Chris Labrenz and his unga-bunga troop, who then ran off into the jungle!

Top right: Ripping heads off teddys is not normal. Kristian Basaraba, Scott Pereira, and Sean Horton rip some "lyped" tunes.

Middle right: Carey Paholek and company performed in the show with style. Did they really sing? Are those real?

Bottom right: Amarjit Panesar. Iron man of D.J.'s. Need we say more?

Off Broadway

The road to a successful acting, broadway or even movie career must start in Drama. In Drama, you must learn key words such as blocking, gels and the famous "up-stage, down-stage". Acting has so many components and they must be studied before one can move on. Theatre knowledge, famous actors, and the knowledge of different acting exercises help memorization, and a belief in what you're doing, even if it is being read from a script. But as the actors in the fall production found out, scripts are obsolete. "VOICES" was made from

scratch, with the actors as its director. The Snowflake Festival contained mainly the works of the Drama 10's and 20's, directed by Mr. Natress, our illustrious acting sensei. Intrigue followed with two casts of the annual Murder Mystery Dinner theatre. People were accused, people died, but we all laughed in the end. After all, isn't that our intention?

Top right: Scott Horon shows his true feelings for Amanda Shultz in the fall production "VOICES". Whatta man!

Above: Where's my magnifying glass? Are those things real? Alois Urlep ponders the enormity of his assistant, Amanda Schultz's... attraction to him.

Center: Cast: (right to left) Dan Seniud, Chris Labrenz, Paula Bennett, Scott Horton, Sherri Baker, Scott Pereira, Sephanie Rowell, Amanda Shultz.

Far right: A distressed Jolene Spychka is speechless towards the verbal jumour given by Sean Horton in the Mystery Dinner Theatre.

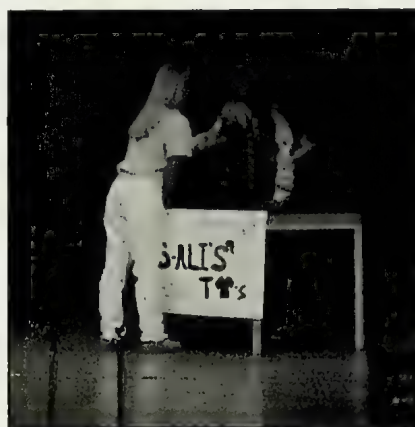

Above: Chris Labrenz aids a fallen Paula Bennett rearing the end of the fall production of VOICES. Unfortunately, Paula would never fall for Chris in real life... or would she...

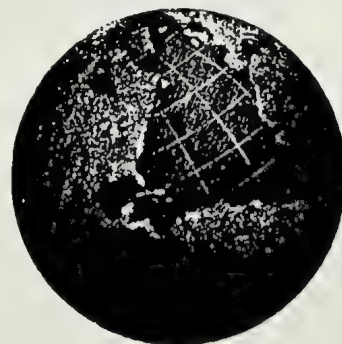

The Players

Some of us may think that the three "pre-requisites" of Performing Arts are: singing, dancing, and acting. After some thought and consideration, think of the concentration needed to combine these three basic qualities. Acting involves memorization, stage knowledge, and eye contact. Dancing includes body movement, choreographic ability and "always looking one step ahead". Singing needs vocal enhancement, and a combination of choral precision. To become a part of the performing arts class, these basics must be

known and understood. After this, the stage is yours. Our performing arts class "performed" many times this year. Their first performance was at our annual Snowflake Festival where they sang "Choo-choo-chi-boogie" and parodied a scene at "Sally's T-shirts", a classic. Their next production was "KAOS T.V." and Showcase '95. There are a collection of short plays directed by the elder students in Performing Arts. All this in a class! Makes you want to get up and dance, eh?

Above: Christine Gibbs doesn't realize who she's dealing with: the famous owner of "Sally's T-shirts", Steve Williams.

Top right: Christine Schoepp congratulates Steve Williams on his purchase of his new plaid bell-bottom pants.

Above: The Performing Arts class boogie to the tune of "Choo-choo-chi-boogie".

Big Band

Do you like to swing with the big bands or rock with classic rock greats? Well, the M.E. LaZerte Jazz Band does. These students put in countless hours of after school rehearsals in order to perfect their great jazzy sounds. The Jazz Band competed in the Sherwood Park Festival in which they obtained a bronze medal ranking. The Jazz Band consists of a keyboard bass, piano, drums, two tenor saxes, two alto saxes, a trombone, one trumpet and a baritone. These instruments make up the great sounds that are so memorable that you can't help singing them over and over again.

Top (second row) Mr. Jones, Corey Carlson, Laurel Sadownik, Daryl Gerigk, Neil Cochrane. (first row) Sonia Albury, Lena Bunzenmeyer, Rebekah De Sousa, and Koree Fray.

Top left: It's the dueling saxophones! Sonia Albury and Laurel Sadownik work to make the sax line sound great.

Right: Lena Bunzenmeyer is the bass keyboard queen in our jazz band and is one of the key components in the rhythm section.

Far right: One single, solitary trumpet. Oh well! Neil Cochrane does a great job of covering up the holes.

Bottom: Will we see these two ten years from now playing at the Yardbird!? Corey Carlson and Neil Cochrane pull off the jazz look without a hitch.

Grand Orchestra

Balance. Tuning. Timing. Gingerings. Dynamics. These are all concerns for the M.E. LaZerte Concert Band members but all the hard work they put in helps them make beautiful music that everyone can enjoy. The Concert Band performed at a number of engagements this year including Awards Night and the Graduation Commencement. They also went to

compete in the Sherwood Park Festival in the latter part of March in which they received a silver metal. The band also participated in an exchange trip with a school from Victoria, B.C.. All in all, it was a jam packed year for the M.E.L. Concert Band, and they seemed to have pulled through with flying colours.

Bottom: The M.E.L. Concert Band consists of Sherri Baker, Corina Dargatz, Rebekah De Sousa, Rhalene Featherstone, Christine Woelinga, Rejan Beaucage, Cora Bloomfield, Ruth Tombe, Candace Kowaluk, Lana Hunt, Lena Bunzenmeyer, Jessica Perin, Paula Bennett, Kareena Schnabl, Jennifer Kelley, Shannon Friel, Paula Oliveira, Matthew Zee, Cheryl Lesyk, Tomi Kohlen, Laurel Sadownik, Koree Fray, David Komaryniski, Victoria Leung, Sonia Albury, Derek Zak, Ricky Sahota, Jean-Marc Aloisi, Mark Rodyeh, Lawrence Chang, Niel Cochrane, David Manna, Corey Carlson, Wes Boschman, Ryan Harding, Sonia Costa, Emilio Anselmo, Mindy Burant, Curtis Hendrickson, Julie Roy, and Daryl Gerejk.

Top left: Concentrate. What note was that again? Paula Bennett looks deeply into her music during Concert Band rehearsal.

Top middle: Only a few more notes! Ryan Harding looks like he's going to burst as he plays his baritone.

Above: The dedicated brass and saxophone players, Neil Cochrane, Jean-Marc Aloisi, Ricky Sahota, and Sonia Albury, play their hearts out to make the band sound better.

Music Abroad

On May 2, our dedicated Concert Band and Swing Choir partook in an adventurous journey to Victoria, B.C. The trip this year was an experiment as these members were part of a band exchange with Victoria High. The purpose? To learn more about life in Victoria, to meet interesting, new people and to stay in someone else's home for nothing! But first they had to weather the conditions on their sixteen hour bus ride (not to mention the ferry crossing). Needless to say, getting off that bus was a blessing in disguise. While in Victoria, the stu-

dents had a chance to sample some of the ambiance of the city. Some visited the Wax Museum, the Museum of Natural History, the Undersea Gardens, had tea at the Empress Hotel, or just cruised the downtown area. As a group they visited Mount Tolme, the waterfront, and Butchart Gardens. All in all, the Victoria experience is one that none of us will soon forget. Hey, have you ever had a bonfire on the beach in the dark with the tide coming in? I didn't think so.

Top Right: Isn't that sweet? Shannon Friel and Paula Oliveira get all close and chummy on top of Old Smokey?! No, it's Mount Tolme!

Above: Wow! It's the grade 12 band geeks Sherri Baker, Sonia Albury, Paula Bennett, and Lena Bunzenmeyer relaxing in front of an ancestral totem pole!

Above Right: Young love and "Priscilla Queen Of The Desert". It's Koree Fray and Daryl Gerigk as they await entrance into that way cool pseudo movie theatre!

Right: "I'm hoping for a pretty shell to find me today..." Here some of the band members go in search of the lost golden shell!

Top Left: It's just one big happy family. Here the Concert Band and Swing Choir members stop to pose before they take off in search of sea creatures.

Top Right: Adam and Sam. Don't they represent all that Victoria meant to us? Beaches and barbeques!

Middle Left: All aboard! Even though it's not the one we were on, our ferry crossing was an experience to remember!

Bottom Left: "Come back here! I'm going to get you!" Candace Kowaluk looks like she's ready to hurt whoever took this picture... Mr. Jones?

Left: "Sleep? What is sleep?" Curtis was known for his lying in the back of the bus, in the aisle catching some ZZZ's.

Scene Change

On March 23, twelve students and two teachers took a very long flight to Paris, France. The fatigue and the length of the flight were forgotten the minute we stepped off the plane. The trip in total was twelve days long, ten actual days in Europe and two days flying time. We spent three days in Paris, visiting the Louvre and the Eiffel Tower; however, a highlight would have to be watching all the psycho people while riding on the metro. Ooo la la la. We then went down to Nice, Eye, and Monte Carlo/Monaco. That was beautiful! We then proceeded to Italy where we first visited Pisa, famous for the leaning Tower of Pisa. Then we went to Florence. This is a great city! One night we went to a discotheque where we danced all night long. Rachel, especially, had fun with her very good looking chapstick boy. Florence is where we also left Sheldon Homa behind. Don't worry big guy, we didn't totally forget about you; we came back. Our trek across Europe continued to Rome where we spent a very exasperating day touring the city. We saw ancient

Roman ruins and the catacombs, the very historic Colosseum, and the Vatican. That was great! Our last couple days were spent in Southern Italy. While it was snowing in Edmonton, we were all getting sunburned in Capri. Ooo la la la! So here's a special thanks to Madame Russo and Miss Super Fonk for putting up with our crazy antics for twelve days, although I think they should thank us for putting up with theirs. We also gained some knowledge on this trip. We learned that you should never trust people when they tell you that you're going to get your feet washed by the Pope-that was brilliant. Our trip was filled with many funny moments and very special times that have already made great memories. Ask Jolene Spychka what she thinks of bathrooms without locks and shower curtains! Ooohhh Grazie, merci. Ciao. Au Revoir.

Act 2

All the world's a stage, right? That means we're all actors playing our parts throughout life. Well we're now in grade 11, one of the easiest acting parts in our lives!! We've been through grade 10, established our new cliques and become comfortable with our school. We have no Diploma exams to think about, we can sit back and just take it all in stride...well, almost. We can watch those around us scurrying from here to there in their eventful lives, the 10's looking for their classes and getting all worked up; the 12's busy studying and working. What do we have to worry about? A few tests here and there that don't really account for much except for

the killer midterms and finals; I mean really, just about the hardest task in grade 11 is staying awake in class! The part we play in the eleventh grade is a fun part full of relaxation consisting of sleeping in, partying, and making excuses when we don't have our homework done. Friends play the largest role in our lives in this time: who we're going to party with on the weekend; who had our courses last semester that we can snatch notes from; and whose place can we tell our parents we're staying at so we can go visit our boyfriends/girlfriends. Ahh, the sweet sounds of grade 11! Who could possibly not enjoy this year of high

school? Really, a chance to act the role of teenager one last time, the time before the "future" hits you hard and strong. One last year before we have to make some serious decisions as to whom we want to be and where we want to go. Working hard is important, but remember, we are all actors on this big stage called the world, and all actors take coffee breaks once in a while!!

Break a Leg

Spring is the time of year when everyone awakens from winter hibernation to go out and participate in the numerous sports emerging on the fields and courts everywhere. This a bit more activity than some people are used to, so it is also a time of injury. Take rugby for example. Anyone who's ever seen or played the sport knows that if you don't know what you're doing while you're playing, you had better move out of the way. But now there aren't many people who don't know the basics of rugby. With its increased popularity, more people are flocking to the fields to watch and play this energetic and fast-paced sport.

Soccer is a game which is more skill oriented. Players spend years practicing and perfecting their techniques. For those of us who haven't spent years playing, the game continues to entertain. If rugby or soccer aren't your thing, then there's sure to be something worth trying. Spring is a time of rebirth and renewal, so why not extend this concept to include learning something new? If you have an urge to just run around, why not join the cross country team? For those who want something more intense to do that requires fast thought, there's badminton and tennis. If you're looking for something that really isn't a sport but

lots of fun and still athletic, join cheerleading.

Whether you're into basketball, baseball, or waterpolo, there's sure to be something out there for you. Bring a friend or two, or three, or enough for a team. Because this is spring and spring is a time for acting up. All you have to do is know where to find the stage and the script that suits you best.

“

“Fall seven times, stand up eight.”

Boys' Soccer

The Senior Boys' Soccer team had it all this year. They had the strong defence of John Hollinger, Steve Dhillon, Ali Shamseldine and, of course, Lars Hirschfeld. The fancy footwork of Said Obeidat and Jamal "Magic" Awad dazzled opponents all season long. Let's not forget the leadership and experience of Mike Yassin, Rudy Molina and Nedal Moustafa, and to top it all off, the heart and fiestiness of Zeal Sydor. The boys won the "B" side of the U of A tournament, beaten by the team who eventually went on to win the "A" side. Unfortunately they were also knocked out of the playoffs in a nail-biter against the team who went on to win cities. The players will have a lot of fond memories; Zeal Sydor had 7 goals in a span of 3 games. Who can forget the Al Pacino imitation by Nedal "God father" Moustafa and Steve "Tony Montana" Dhillon? All in all, it was a fun year. Special thanks to Coach Williams and Mr. Guy.

Bottom Right: Steve Dhillon displays his fancy footwork in a rather difficult situation.

Girls' Soccer

Soccer rules! This year's soccer season was definitely a challenging one. Especially since this year the girls played in a highly competitive division. This, however, did not stop them from doing well. With the assistance of their outstanding coach and hard work the girls successfully earned third place in the cities. Great job girls! The girls see a big future ahead of them.

Girls' Rugby

Girls' Rugby. Need I say more?! The girls on this years rugby team knew what they were doing when it came to getting out on that field. Led by captains Brea Chouinard and Cindy Esteves as well as their coach Rob Norton, these girls were able to overcome the stereotype that rugby is a sport for the guys. Try telling that to Deana! Our team was tough. These girls did not skip a beat. They were forever trying to improve their skills as well as those of their fellow players. This led them to a spot in the semi-finals where they played the toughest team in the league, J.P., and unfortunately lost in overtime by a kick. Well, when the ref is red colorblind, what can you do?!

The team: Paula Bennett, Tegan Gordichuk, Jen Ash, Tonya d'Entremont, Brea Chouinard, Eleni Karageorgeous, Jen Kabanuk, Cassandra Hodgson, Crystal Emberley, Cindy Esteves, Shari Baker, Mary Coghlan, Victoria Leung, Holly Perreault, Laurel Sadownik, Nadine Kellman, Kim Rennie, Cathy Schlimme, Linda Shmyr, Darlene Kaplan, Binh Hung, Deana Harmon, Cara Bloomfield and Pam Bowen.

Boys' Rugby

What is rugby? Rugby is a sport that originated when a boy who attended Rugby School, England, during a game of football, picked up and carried the ball. Rugby previously had only allowed for the kicking of the ball.

What is Guy's Rugby at M.E.L.? Total unbridled, irrepressable action, strength and effort. This team was not one to let others walk all over them. The size of their forwards was proof of that. Led by Mr. Goin, their coach, they made up one of the toughest teams in their division. They were tough, defined by some of the injuries they encountered. For example: pinched nerves, concussions, asthma attacks, sprained necks... and that's just one player! But no matter how much it hurt, the game itself is too much to give up. The team's en-

thusiasm and drive earned them a place in the finals where they, unfortunately, took second seat behind Queen Elizabeth. But hey, at least they got those shiny silver metals!

The Air Up There

This year's editions of Senior and Junior Boys' basketball reached the pinnacle of excellence with both teams finishing the season as undisputed city champions. With both teams finishing no less than second in any of the many tournaments they entered, they will leave their mark as two of the best teams in Voyageur history. Their success would not have been possible, however, without the outstanding leadership of probably the two best coaching staffs in the city. Mr. Elniski (Senior Boys), Mr. Smith (Junior Boys), and a great supporting cast, helped their respective teams into the dominant forces they become. Credit must also go to the players, as they displayed hard work and dedication the entire year. Because of these factors, and great fan support, the guys were able to make the '94-'95 basketball season one to remember.

Learning the Hoops

The Senior Girls' basketball season was one of trial and error. The team's hard work philosophy persevered as the girls bonded strongly. They attended the prestigious Vic Redmen tournament as well as tournaments at Ross Shep in Adrossan and in Saskatchewan. The girls were defeated in a quarter final game against Shep in the Premier division, but they finished in third place at Shep.

Coached and assisted by Mrs. Jap, the junior girls had an overall productive season. They participated in a variety of tournaments including the J.P. tournament and one in Saskatchewan. Their success was marred by injuries at key times in the season, but they finished as first place city conference champions.

Badminton

The following highlight the accomplishments of this year's Badminton Team: A lunch hour club ran three times a week with between 20 and 30 students participating every lunch hour; tryouts and practices began in March with a greater number of students trying out this year than ever before; we ended the season with a 6-4 record, finishing third in our division; this was one of the strongest teams ever in M.E.L. Badminton, with some VERY skilled players.

Highlights of the Zone Competitions: Victoria Leung, Stefan Bissani and

Jason Hsu all finished third in Sr. Girls, Sr. Boys and Jr. Boys Singles; Stefan Bissani and Raymond Au finished third in Sr. Boys Doubles; Jason Hsu and Kenny Lam finished first in Jr. Boys Doubles, won the Metro League Crossovers and competed at Provincial competition in Brooks on May 5-6; Victoria Leung and Stefan Bissani finished third in Sr. Mixed Doubles.

The 94-95 Badminton Season was a productive and enjoyable experience for all players and coaches. We look forward to an even stronger team in 95-96.

Waterpolo

We won . . . a game, for the first time in several years the M.E.L. waterpolo team has actually been a **CONTENDER** for the finals. The game consists of 7 players on each team, 6 horses (kidding), a pool, and a ball. We played a challenging season and improved immensely. Truly not a sport for the weak, waterpolo tests both an athlete's strength and endurance. Perhaps the pressure will make a better team next year.

M.E. LaZerte Open

This year at M.E. LaZerte, a new club was formed for the real athletes of the school: Tennis. Organized early last fall, games commenced this spring with over twenty eager members. Images of spectacular serves, deafening smashes and intense volleying came to mind. Unfortunately, this did not happen when we were out there. For most of the members, this was the very first time they ever picked up a racket. However, improvement soon followed, and with it, the love of the game. This was, of course, due to the influence of the co-advisors Mr. Kinoshita and Ms. Smith. Hopefully this club will continue next year; the appeal of court sports is quite popular among M.E. students.

Get into Character!

"Students of LaZerte unite! Together we can dream the impossible dream, achieve the unachievable...and if we're lucky, boycott Mr. Auton's ugly ties."

This seems to be the philosophy of many students at LaZerte. From the organizers of the food hampers to the peer tutors who donate their time every noon hour, LaZerte's many clubs and organizations serve as a vehicle for many students to make a difference or just have fun.

They say there is no stopping brilliant minds on a mission. With groups like Students' Council, the Ambassadors' Club, and the Voyageur Voice staff, it is clear that

these individual groups have become the essence of LaZerte.

Dedication and hard work has kept our yearbook staff running smoothly, and the organizers of Grad '95 frantically prepared for the year's graduating class. Our step team was seen in the wee hours of the mornings practicing their steps, while the science olympians worked long into the wee hours of the night. In the darkest corners of LaZerte, the skills club members met religiously, and Mr. Gosman's trivia lovers had a battle of the minds every Thursday. Amid the riotous atmosphere of Mr. Bererton's lair, the games club members all huddled

in an exciting game of Dungeons and Dragons.

There is never a shortage of activities at LaZerte. For some, the hardest thing to do is deciding which group to join. Life can become a parade of noon hour meetings and afterschool sessions if one chooses to join every club. Time management becomes essential for those who are daring enough to do this. "So to all those students who believe that young people can make a difference, let us all unite and burn Mr. Auton's atrocious ties!"

"Do what you can, with what you have, where you are."

- Theodore Roosevelt

Students' Council

M.E. Lazerte isn't just a school; it's a place built on blood, sweat, and tears - at least for this year. The Students' Council of 94/95 has worked until callouses formed to build up the school spirit and God knows they have tortured, perspired, and cried over, for, and after all the great events they sponsored. At the heart of this group is the multi-talented Ms. Saley. She has to be multi-talented in order to work with such a diverse group of personalities on the executive and general council. With the big chief, Biju Thomas, at the reins, Students' Council has achieved great recognition throughout the student body with their meticulously planned activities. Having visited Birch Bay Ranch for their retreat, the council stated their goals for the upcoming year and was ready to put their divine

plans into action. Who could forget the Halloween activities or Spirit Week? Let's also mention the X-mas candy grams and Valentine kisses. There was also the organization of the PCL X-mas party and unforgettable pep rallies. Not only did this group contribute to the school, but they organized fundraisers for the community and other countries, namely looking for toys for Prince Charles Elementary School, and raising money for students in war-stricken Bosnia. Truly, this group has not only organized events for the school, but made themselves the foundations upon which this school year was built.

Voyageur Voice

In its second year of publication, the Voyageur Voice has met many speed bumps in its race with deadlines and printing fees. Road hazards in the form of disappearing news ads and cranky computers which have a mind of their own, have kept our newspaper staff on its toes. Despite all the delays, the Voyageur Voice staff was successful in completing three excellent editions, and each one unique in its own way. With the hard work and dedication of the newspaper editors Heather Harris and James Mathewson, the Voyageur Voice has become a permanent future at La-Zerte. Connie Wong's group of hard-working advertising collectors have kept the paper cheap at a low, low price of twenty-five cents. And, of course, we can't forget the many talented writers who fill up the pages of the Voyageur Voice. Without them, there would be no Voice.

Grad Council

Clearly, graduating from three years of perseverance and hard work is probably the most rewarding moment of your life. To vividly imprint this memory in our minds, the renowned Grad Council become major players, doing anything and everything to make grad run smoothly. Under the esteemed tutelage of Mrs. Malayko and Mr. Stobbe, Commencement and Banquet become the epitomy of or-

ganization and success. Extensive discussion, commitment, and decision making is what characterizes this efficient and competent group. In short, those who stay up until the wee hours planning the most important moment of your life have sacrificed much for your sake. Grad Council 94/95 have given themselves to this endeavor.

Crime Stoppers

This is the first year that our Student Crime Stoppers have been pro-active. Pro-active means that the students do not hide their identities and try to stop crime before it happens. Many students do not even know what Student Crime Stoppers do. These students do not "rat" on others; their job is to award money to anonymous tipsters. I am very proud to be the chairperson of the Student Crime Stoppers, and I thank the advisors and the students who volunteered to help keep our school's crime rate down.

The Groundlings

The First Nighters attended eight performances this year, and they met the actors and received food after each one. The plays were *Caesar and Cleopatra*, *A Man For All Seasons*, *Richard III*, *The Beggar's Opera*, *The Cherry Orchard*, *The Lay of Land*, *The Music Man*, and *Oh, What a Lovely War*. According to Pam Bowen, the funniest among them was *The Lay of Land*, but the best were the *The Music Man* and *Richard III*. Unfortunately, there weren't any plays that they could throw rotten food at!

Ambassador Team

Every individual has a conscience and so it comes as no surprise that M.E. has one too, namely the renowned Ambassadors' Team. This exuberant group of self-motivated students and their three advisors, Mrs. Pirnak, Ms. Kokoski, and Miss Rocco, have initiated various activities for the school and community. As expected, not a single negative comment can be said. Being a clandestine group last year, the team has now exploded into a far from discreet organization - there are just too many heads to count! Like every association in today's vicious battlefields, a.k.a. society, they have sponsored a myriad of events. It all started with a massive brainstorming retreat to Strathcona Wilderness Centre where - excuse the cliché - the seed was sown. From there, the Ambassadors coordinated peer tutoring sessions, opened an "Eclectic Fashions" store, acted their true age by storytelling at the PCL X-mas party, sponsored the annual "Jobs for the Nineties" community workshop, and many other activities that would give anyone attempting to keep track a headache. Life is - excuse the cliché again - a bowl of cherries for the lively group.

Skills Club

The M.E.L. Skills Club aims to foster self-esteem and high achievement among students pursuing courses in Career and Technology Studies. The club is involved in activities which develop leadership skills and team building. Ultimately, the club gives students the opportunity to prepare for future careers. This year, the M.E.L. Skills Club participated in a cardboard boat race and a cardboard toboggan race. A team

of four students cooperatively designed, built, and raced a cardboard boat and toboggan. They won the most weight bearing category in the cardboard boat race, capturing first place in both design and speed categories. Students who participated were Dayna Serediak, Christine Woelinga, Chris Sherman, Chris Hawrelak, and Steve Loomer.

On March 10, 1995, the M.E.L. Skills Club attended

a Leadership Conference held annually at NAIT. Students were given the opportunity to play team-building games and listen to influential guest speakers from various industries.

Eureka!

Below: "Here you go. You're a very nice little car." Chanchoura Bouphasiri gently sets the "photon torpedo" car down for the race.

Led by Mr. Bererton, in about two weeks the science olympians managed to cram a horde of information about concrete and calculating the size of organisms through a microscope into their stressed "little grey cells" in addition to building a "photon torpedo" and a pasta bridge. The photon torpedo was a small solar powered car that had to run under what seemed to be impossible conditions. The two M.E.L. teams, Amino Acid Trip consisting of Kareena Schnabl, Connie Wong, Chanchoura Bouphasiri, Paul Welke, Kam Deng, and Lorne Kern, and Mitochondria consisting of Bijou Thomas, Sajid Khan,

Amarjit Panesar, Aly Amlani and Tabreez Lila, were ecstatic to see their cars move 10cm, let alone several metres! The pasta bridge could consist of pasta and glue and must not exceed 2kg. At the competition, everyone was impressed by some of the beautifully crafted bridges of other teams, but still, they held their breaths with hope when theirs were tested. The judges loaded weights onto the bridges to determine how much they could hold before crumbling to pieces. As it turned out, Mitochondria's bridge, which contained more glue than pasta, bent like a rubber band and fell

between the tables instead of cracking! It was plain, but wonderful in their eyes when it won third place, withstanding their predicted 28kg. The car made by the Amino Acid Trip team received a gold medal because although it crawled a few centimeters, some did not even move! They were also second in the concrete category, and to their surprise, placed first overall in the competition. Hopefully, next year's teams will have as much fun. Delight Mr. Bererton again by doing well!

Wacky D.J.'s

If I were to ask if there is one easy way to overtake the school, what would it be? The Radio Club of course! Head D.J. Mr. Cathers leads the way as his juniors follow behind, learning the ways of a disc jockey. One rule Mr. Cathers enforces is that although those who know you may listen to whatever *you* want to play, there should be absolutely no "lewd, crude, rude, and obnoxious" words. This club

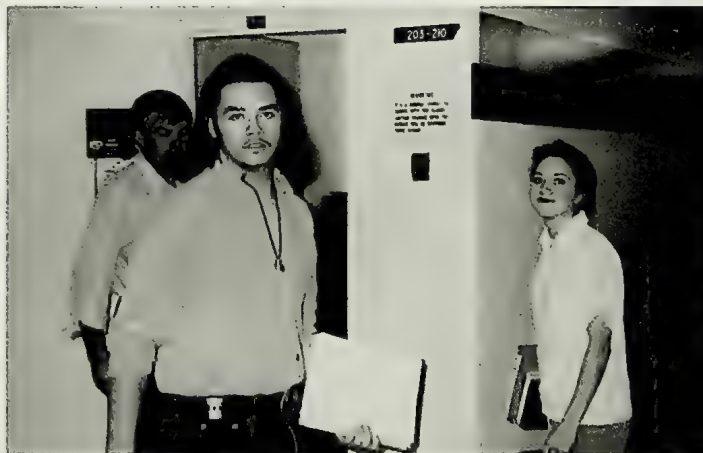

has grown over the years and the air time has moved in class from juvenile to high quality, but the members did not get in and have fun for nothing...student Union Ticket Packs were sold to help purchase new and improved C.D.'s that everyone loves and would like played. Though this club is quiet, it's a blast once you join.

Freeze!

"Y'all wanna be down, with the M.E. crew. Y'all wanna be down, with the funky crew. No matter the time, you cannot bust our moves. Y'all wanna be down!" And who wouldn't want to be "down" with the M.E. LaZerte Step Team, the number one step team in Edmonton? It takes a lot of determination, time, effort, and coordination to pull off such a feat, but they surpassed all obstacles and won the First Annual Step Off Competition. There, they beat their opponents, the Ross Shep Step Team, a victory that has been long due. Since the arrival of the Step Team last year, they have enticed everyone with their mesmerizing style of stepping, a new form of cheering. Under the guidance of Ms. Smith and the leadership of Michelle Morgan, this team is successful because it is stacked with talent. There is the show-stopping interludes

of Chantelle, Lenore, and Carolee; the sweet voices of Heather, Karenu, and myself, Veda; and the creative talents of Meaghan, Hilary, Raiven Angela, and "Little" Michelle. This prestigious team has performed all over the city including elementary and junior high schools, basketball games, the Stadium and Colliseum, clubs, parties, City Hall, and even in front of the Edmonton Public School Board of Trustees. But of course, they love performing for those who love them the most - their peers at Pep Rallies at LaZerte. The new year approaches and new talent will join the team. Hopefully, stepping will always be strong at M.E. because... "The Vogayeurs are the number one step team!"

Off Like a Herd of Turtles

"You may be disappointed if you fail, but you are doomed if you don't try." I drew courage from this comment by Beverly Sills when I first decided that I would seize the role of yearbook editor. The task was quite astounding to me when I thought about it. Imagine, whatever is done will be set on paper *forever*, and it may possibly be criticized as *our* staff does with older yearbooks! It seems quite overwhelming and nerve-wracking sometimes, but it is also one of the most gratifying and rewarding experiences to collect writing from the different creative minds in the school, to capture various people in action on film, and then to bind everything into a sort of biography that will retell to us the story of a short moment in our lives when we take a wistful, nostalgic look back. I regret that I couldn't do everything I wanted to do, but one thing I've discovered while being a part of yearbook is that there are not enough hours in one day, especially when we were ap-

proaching a deadline. I thank my staff and my advisors, Mrs. Watt and Mrs. Erickson, for their patience during my occasional bursts of absentmindedness, and Mr. Cimolini for taking the time to care for my troubles and for solving any technical problems. I also appreciate everyone's cooperation in the school - everytime I made inquiries to someone, I received a friendly answer although my questions probably seemed strange, and everyone was tolerant of me when I blinded them with the camera!

I want to apologize for the mistakes that I am sure that you will find in this yearbook. Remember, nobody is perfect, least of all me, and everything has been done by a group of stress weary people, most of whom belong to a billion other activities! I strongly advise people NOT to be involved in everything because, as a German proverb states, "Good things are not done in a hurry", and believe me, you will be in a rush most of the time if you

do that! One of things I am sure some of you critics will notice is our picture of the physical education staff. I want you to know that I am aware that the picture was from last year, but do you realize how difficult and impossible it is to actually round up the phys ed staff?! Anyway, I do have Mr. Guy's approval to put it in; it was his suggestion. I must make the correction that Mrs. Sutherland is no longer part of the staff of LaZerte, and I apologize again. Please be tolerant of our other mistakes.

I feel that I must mention my wonderful instructor in Olds who advised me not to "plan too much". We poor students constantly hear the words "plan, plan, plan", and it is important, but too much planning can leech the fun out of life. Sometimes actions performed on the spur of the moment lead to a path that a person had not considered before that is more gratifying. For instance, an actor sometimes gives the most brilliant performances when he reacts naturally to the moment instead of how it had been planned. Always be prepared, my instructor had told me, but do not be blind to other options, so those who still do not have a clue about what to become later in life, don't worry. I admit that I had been one of those plan crazy people!

I also send my gratitude to every member of the staff and the custodians who had brightened my day with a smile or a word of "Hello" or "Good morning". These

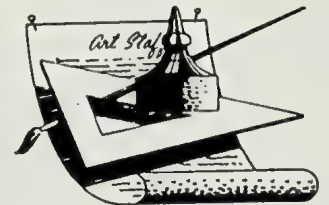

small gestures have always fuelled my determination to proceed, especially when my confidence ran low. I will remember the occasional words of praise given thoughtfully to me by Mr. Dunwoody, the uplifting advice from Mr. Meek, and the tremendous faith and support from Mr. Bererton. To satisfy you, Mrs. Watt, I admit that I have come a bit "out of my shell" as you insist on putting it. Now, you must work on Emil!

To everyone, I wish you luck in everything you do: "I'm a great believer in luck. I find the harder I work, the more I have of it."

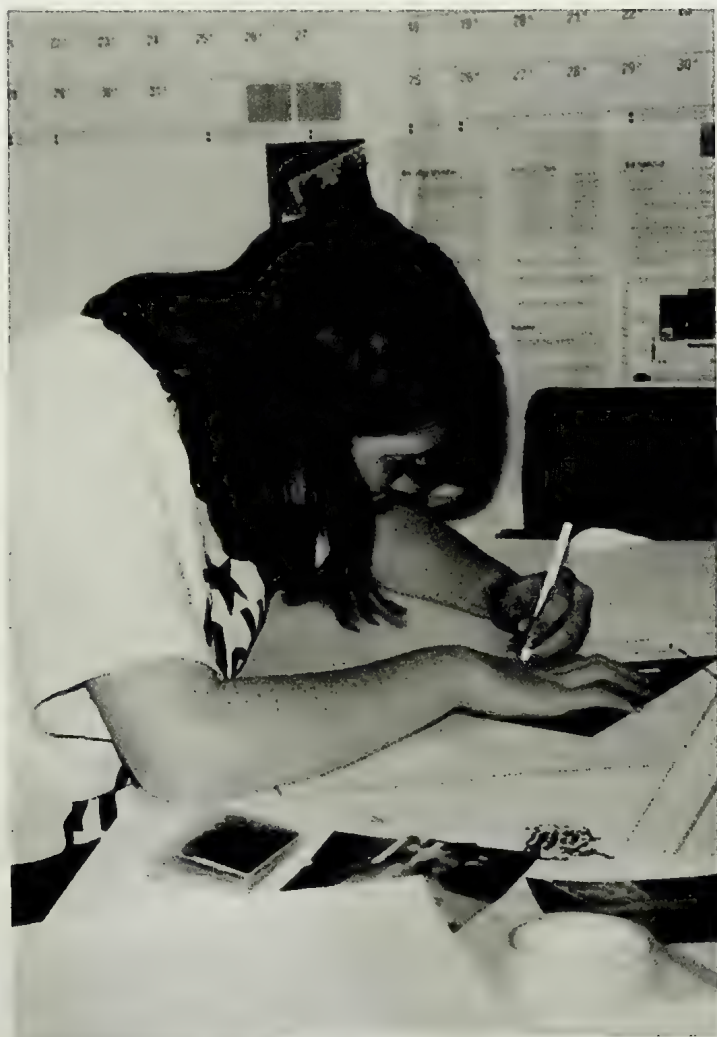

- Stephen Leacock

Behind the dark and inconspicuous door found in the corridor ruled by "Auton the Terror" sits the cramped yearbook room where the yearbook staff creates the tangible souvenir of high school. To ensure that the final product is the finest the staff can produce, several members were sent to spend a few precious days in August at the Old's campus to learn the skills required. Sounds boring, you say? Actually, it was fun with the group of many quirky students from all over Alberta. It was obvious that the strangest ones came from our yearbook club; during the Lyp Sync, Erin and Caitrin gargled "Twinkle, Twinkle Little Star" with the lights off and their glow-in-the-dark yearbook T-shirts on. In school, the ability of the staff members to finish assignments scant days before the deadlines is amazing! Mrs. Watt should be commended for staying sane amidst the panicky madness just before the dreaded

things. Now with Mrs. Erickson, who is wonderfully calm, her work should be lighter. Scott seems to worry even more than the editor does, always ready with questions whenever he hears of a problem! As for the rest of the staff, Sean appears to have some sort of attraction for the camera from all the pictures we have of him; Emil is even shyer than the editor, which had seemed impossible; Katrina is sane and very reliable; Paula is usually all smiles; Erin and Caitrin, you already know how strange they are; and Connie and Chanchoura are inseparable "siamese twins"! There is also Jasdeep who takes care of the technical problems. They are all good workers under stress, so keep that in mind when you spot the faults!

Left: Erin Hoskins concentrates on designing a layout, although she is the photographer.

Above: Pizza! The staff is rewarded a pizza party after the horrific first deadline was met. Caitrin Claffey and Scott Pereira can breathe and smile now.

Act 3

This is the final show, the last call! Enjoy it while you can (and believe me, we did!). There is more felt within a grade twelve's mind when this year ends than any other year. We have been fighting for three years to have supremacy over the other grades, and, finally have grabbed the lead roles instead of playing the extras. Our teachers, who play our directors, guide us through the basic steps, the who, what, where, when, why, and how's of life. This year, the performers who play the role of grade twelve students are promoted to graduates ... a giant step on the world's stage. In May, the grads have a "cast party", namely

their Commencement and Banquet. What grade twelve graduates strive for is a sort of lifetime achievement award, achieving goals while searching for a career. Of course, it all begins with the first day of school. Remember trying to find your classes. Well, before that, you have to go down the right staircase, not the fire exit. Or how about the Biology 30 class with Mr. Dunwoody where all the guys found out that "they weren't the only ones!" Only Kareena Schnabl knows how it feels to fall directly in the middle of a scummy slough, full of tiny microscopic organisms the class later picked off and

studied. Oh, is that Mr. Stobbe investing in a new kind of hair gel? All these incidents were purely accidental but truly unforgettable. May our time on stage be an exhilarating and long one, but don't forget the people who watched you, who applauded, and most importantly, who helped you through the time you forgot your "lines" or didn't make the proper "movements", and the people who picked you up when you fell. May the spotlight shine on you... 'till the curtain closes.

"Life's but a walking shadow, a poor player that struts and frets his hour upon the stage and then is heard no more."

- William Shakespeare

Below: N, this is in no way posed! Lana Buerger and Sherri Koshman will always be "shiny and happy people".

Above: "What?! You mean you guys are actually going to listen to me and put this picture in the yearbook. All right, I love the yearbook staff!" (Tim Shew)

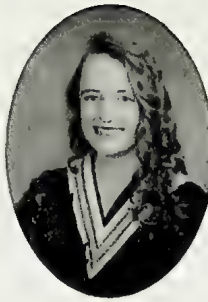

Right: What are these two beautiful ladies doing in the library? Oh, Jen Raaen and Crys Tremblay are studying for one of Mr. Mock's killer Social tests.

I learned a lot of
new stuff these last
two years. ME was a
great memory but
this memory will not
last cause I might
leave my best buddy
behind. Thanks for
all the times we've
shared together. I
love "U".

Baby Face

These are some of the graduates of the class of 1995. See if you can recognize who's who. The pictures are number from left to right and from top to bottom. You will find the answers on page 141.

Far Left: If you look at the picture below this one, it is obvious who these two cuties are. It is honestly a coincidence! Perhaps some parts of our personality actually are already determined when we were babies.

That's Who?

This page is a continuation of the previous page, but it is numbered separately. Remember, they are numbered from left to right and from top to bottom. The answers can be found on page 141. Have fun!

At the Hop

Below: Tim Homenuik and Lena Bunzenmeyer proudly parade down the catwalk. Sassy!

Hey Cats! Can you dig it? March 10, 1995, the Grad Fashion Show lurched to life taking on the form of a sock hoppin', soda jerkin', fifties theme. Complete with a Greever and a poodle skirt, this group of talented models strutted their stuff to the liking of their peers. As well, the clothing and textiles crew tore up the stage with their own clothing designs. All in all, this fashion show was a success, and that's not square.

Above: Get steppin' girlfriend! Kim Ly struts her stuff.

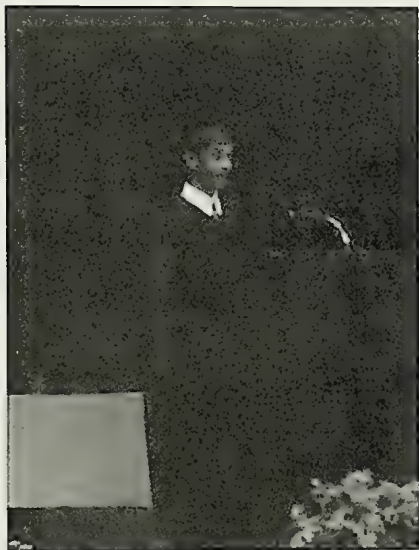

Above: All you see is plaid! Heather Harris and Janet Dymichkowsky definitely have the look!

Above: Who are you waiting for Mr. Goin?

Valedictory Speech

Good evening. Tonight, our graduating class celebrates the Commencement. A term frequently used, but not often contemplated, commencement can be equated with a beginning. And indeed, such is the case tonight.

There can be no beginning without an end, and for every end there is a new beginning.

The security that we have grown accustomed to in high school is near completion. We stand here today on the precipice of becoming adults. This transitional point marks the emergence of new objectives, along with a transformation of character and values. This is a subtle change, not perceived in years, but by experience. The lessons we have learned in high school are invaluable. The importance of education and learning are crucial for the progression of both ourselves and society. As every high school student knows, knowledge does not always find its source in a textbook. Our ability to interact with others is developed through the relationships that we possess, and it is from these relationships that we can grow as compassionate individuals.

We have struggled to pass exams, make new friendships, and actually learn something in the meanwhile. Throughout our high school years, the experiences that we have encountered serve as the stepping stones towards that elusive ideal of freedom and independence associated with adulthood.

Every new freedom carries with it an equally new responsibility.

As we enter this new plateau, hesitation and uncertainty are inevitable, as with any change. Our dreams and desires have altered over the years to become more clear, or perhaps more enigmatic. Quite possibly, the greatest changes are still yet to come. We must remember, however, that from each new step taken comes new understanding.

Every graduand here has demonstrated the capability and dedication necessary to become a contributing member of society. The difficulty in the challenges that lie ahead are matched only with the perseverance of this group. The potential of this graduating class is enormous. The knowledge that developed quantum physics, the athletic prowess of an Olympian, and the know-how that constructed the first satellite, all reside within this room. Everyone here harbours a distinct proficiency

anticipating utilization. Some of us have realized this potential already, while some of us continue to search. There is nothing wrong with exploring new venues. It has been said that sometimes the journey itself is the best destination; however, indecision should never induce a reluctance to take the initiative to try because any path taken is better than no path taken.

Though our initial attempt may not be our paramount achievement, with it will come a better understanding of what we truly desire. We have come from different backgrounds with different ideas, but now we emerge as a unified and successful group.

As we leave here tonight to embrace the challenges set before us, I would like to leave you with a quote from Lord Alfred Tennyson accentuating the optimism of our future.

"For I dipt into the future, far as human eye could see,
Saw the Vision of the world and all the wonder that would be."

Thank you, and good night.

Bijou Thomas

CONGRATULATIONS GRADS

Class History

Brea: Good evening ladies, gentlemen, honoured guests, parents...

Susan: ...teachers and fellow graduands. We've been chosen as your class historians. My name is Susan Huculak.

Brea: And I am Brea Chouinard. One of the many memories we share is the constant power to the woman struggle. Many of you must be wondering why there's no male representation up here. If you sit back and think a second I know you'll realize what a dumb question that really is.

Susan: Aren't we more manly than all of the hockey guys put together anyways?

Brea: Except hair wise though.

Susan: Yeah, Darren Reynolds alone kicks our butts in that category.

Brea: But seriously, the three years at LaZerte have been one heck of a ride.

Susan: Most of us have matured from the awkward grade ten geeks we once were.

Brea: And Kenny Buchynski, has a batch of hair on his chest to prove it.

Susan: So does anyone remember our grade ten days? Registration day was awful, we were all dressed up in our Sunday best. We stuck out like nuns at an X-rated movie because no one had told us that it was a cardinal sin to dress up for registration day.

Brea: But we were quick to learn high school's ten commandments. Now, as seasoned veterans, we learned the exam day dress code; grub, grub, grub!

Susan: Simple yet sassy!

Brea: By the time we got to grade twelve, we had our own dress code.

Susan: Sweats, a hat and no underwear, right Bart Wiebe?

And let's not forget the first day of grade ten. We were all too cool to use the maps provided for us in the student handbook.

Brea: As if we would have known how to read them anyway? What language were they written in?

Susan: And who wrote the room numbers, Chanchoura Bouphasiri?

Brea: You'd need a magnifying glass developed by NASA to read those numbers.

Susan: But being the intellectual individuals

that we are, we eventually found everything and settled right in. Some of us even worked up the courage to try out for a sports team. Ah, those were the days, but grade eleven was even more memorable.

Susan: So, Brea, any memories from grade eleven, rugby memories perhaps?

Brea: No, I can't recall anything.

Susan: Didn't I hear about some girl cracking her cheekbone then, walking into walls at school or something along that line. Remember, she was yelling frantically "where's my eye, where's my eye?"

Brea: No, nothing of that sort. I do recall some hilarious grade twelve memories though. How about the time Frances O'Connor drove into Nicole Dunham's parked car.

Susan: Everyone was standing around the parking lot; they all saw and heard it. The parking lot was practically empty. There was Nicole's car and about one hundred empty parking stalls.

Brea: But Frances still managed to smoke that car real good.

Susan: She must have gone to the Jen Ash school of driving.

Brea: There are so many memories about cars and bikes. Remember the time Mitch Campbell and Matt Sharuga inadvertently threw a hamburger at Mr. Auton as he was riding his bicycle.

Susan: Too bad he caught up with you, hey guys?

Brea: It kind of reminds me of grade ten volleyball, Norm Kapustinski and a cup of applesauce.

Susan: Those guys don't have any luck with food.

Brea: We also received an anonymous letter about Mike Ljevaja, some choice reading material and his ambition to be a mailman.

Susan: I'm not sure what that's all supposed to mean but I'm sure that there are some parents in the audience that understand.

Brea: Enough with the memories, let's play a game. I'll say a name and you say the first thing that comes to your mind. I'll start with an easy one. Jen Ash.

Susan: Car Accidents.

Brea: Heather Thomas.

Susan: She's stubby and she's got the fingers to match.

Brea: Janet Dymachowski.

Susan: Easy one. Star Trekkie.

Brea: Pam Bowen.

Susan: First person in history to break her leg miniature golfing.

Brea: Cara Campbell.

Susan: Hey Barbie, where's Ken?

Brea: Marsha Hiew

Susan: Marsha, Marsha, Marsha!

Brea: Jackie Schur.

Susan: Half woman, half lobster.

Brea: Kam Deng.

Susan: Loud and Rowdy; a real trouble maker.

Brea: Sarah Delorenzo.

Susan: Obsess much?

Brea: Dana Krywulak

Susan: Sugar and spice and everything nice.

Brea: Cindy Esteves.

Susan: One heck of a hooker!

Brea: Just relax; it's a rugby position.

Susan: Now it's my turn. Kristian Basaraba.

Brea: Anorexic!

Susan: Mitch Campbell.

Brea: Ooo, those Wranglers.

Susan: Sang Cao.

Brea: What? You failed your driving test?

Susan: Randy Bretzer.

Brea: California boy, Goldielocks, Fabio, Arnold...

Susan: Biju Thomas.

Brea: President of the Speed Demons.

Susan: Bobby Gautum.

Brea: The student formerly known as Prince.

Susan: Andy Mah and James Mathewson.

Brea: Didn't they take an expensive film making course in Saskatoon?

Susan: Mark Bently.

Both: (Smile and laugh)

Susan: Sean Horton.

Brea: The funniest person I've ever met.

Susan: Barry Coleman.

Brea: Where's Waldo/Moby?

Susan: Ryan Kaenh.

Brea: Cookoo! Our resident sheep herder.

Susan: That was fun. As we prepare to sign off, we thought we'd share with you The Top Twelve Things We Will Miss About M.E. LaZerte.

12. Our International G.Q. Men, including Steve, Ronnie, Biju, Sandip, Aly, Salim, Sajid and our favorite Kim Ly.

11. Watching the hockey guys hold up the wall.

10. Amarjit Panesar's satanic giggle.

9. Our backwards system that air conditioned in the winter and heated in the summer.

8. Perogy Day!

7. Our cheerleaders. No wait, our Step Team!

6. The soccer and rugby rivalry.

5. Our City Champs basketball and football teams!

4. Mall 30 and Spare 30.

3. Mr. Sumyk. No wait, I mean Mr. Myck.

2. Mr. Bererton's bomb making class!

1. Skinny dipping in the rotunda!

Brea: Now in closing, we'd like to leave you with perhaps the wisest words of wisdom we ever learned in high school: No tan is a safe tan! We love you, thank you and goodnight.

-by Brea Chouinard and Susan Huculak

Final

Top: Cecilia Wong and Sherry Phan give a smile of contentment - they have finally graduated!

Above: Now that they have their diplomas, Jennifer Ash and James Mathewson can breathe easy.

Above Right: Dan Ozegovic hugs Cindy Esteves as they celebrate one of the most anticipated nights of the year.

Right: "I'm free!" Kareena Schnabl gives a radiant smile as she tastes freedom from the public school system.

Far Right: Scott Pereira and Nuno Branco, pals to the end.

Curtain

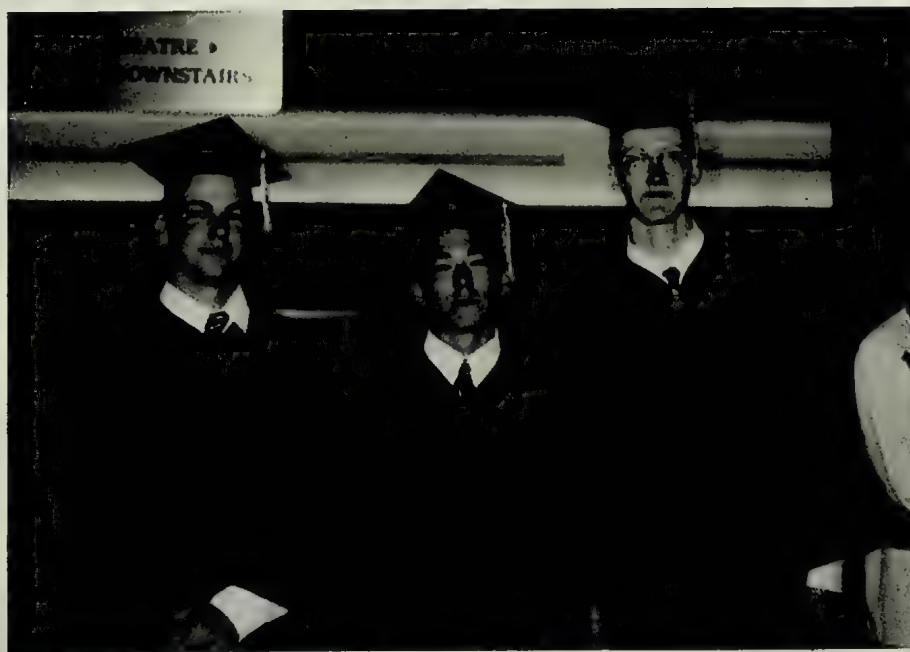

Far Left: Friends forever, Jennifer Raaen, Dana Dagel, Carly Morrison, Jennifer Ash, and John Hollinger immortalize this important moment by taking a picture together.

Left: This is where it all happened, Carolyn Leung, Nicole Mork, and Heather Solowan pose on the stage upon which they graduated.

Below: Graduation means going separate ways but Cindy Esteves, Narissa Khan, Nadine Khan, Sandy Lau, and Kim Ly decide to spend one more moment together.

Bottom Right: "C'mon, you've got to look perfect". Jennifer Ash gives Carly Morrison a little touch-up with her collar, trying to attain perfection.

Left: "Is it really over?" Reality hasn't really sunk in yet as Darren Reynolds, Jaret Lee, and Barry Colesman give the camera grim smiles.

Class Prophecy

Hello and welcome. Because of their 20 year reunion coming up, the 1995 graduation class of M.E. LaZerte is the focus of this speech. Our researchers have dug deep to find some juicy little tidbits about this class.

For instance, did you know Bijou Thomas, the once president of M.E. has taken over Nicky Fordinski's job as the smooth talking used car commercial king?

And speaking of smooth talkers, have you seen Chris Sandford's new talk show, "Don't worry, I won't tell"?

And what about Carly Morrison's new talk show, "Don't go there girlfriend"? She's kicking her guests to the curb everyday!

Eric Black's drama skills led him to become a karate champion. But he did not lose touch with his artistic side. He became famous for his paintings of the well-known erotic dancer, Sherri Koshman.

And have you heard about once timid now bad girl Cecilia Wong? She's a kick-butt lawyer by day, and a Harley Biker chick by night.

After one platinum album, Steve William's band "Wet Dog Hair" broke up but fortunately he still has a steady job as a lounge singer at the Edmonton Municipal Airport.

Speaking of singers, Barry Coleman is now the freshmixer for Jaret Lee's dope posse "Snoopy Jaret Dog".

Because of her crazed obsession with Greece and Greece memorabilia, Erin Tennant has produced the new film Greece 3. This film stars Scott Pereira, an up and coming actor who replaced Bob Saget on both Full House and Funniest Home Videos. No-one noticed, however, because of his uncanny resemblance to his idol.

Scott's good friend Paula Bennett is also doing very well on Broadway as the self-proclaimed Theater Sports Queen. She has had sold out shows across the country.

After her debut in M.E.'s grad fashion show, otherwise called "The Fadia Show", Fadia Moustarah became a world renowned model, upon the runways with such greats as the "thinner than Kate Moss", Nadine Khan.

Sean Pasternak, Shawn Symborski, and Darren Lashchowski opened up a chain of successful sports bars, commemorating the greats of hockey. It's obvious that Sean Pasternak designed these bars because they do not contain stairs to prevent any passed out drunks from being dragged up them!

Because of her unusual taste in movies, Jackie Schur, also known as "Rocky", has opened up a specialty movie store featuring such movies as "Mask" and "The Lifeguard".

On a serious note, Darren Reynold's mother phoned us asking for any information to the whereabouts of her son. Many beachcombers, including Brea Chouinard, have claimed to have seen the backside of a great hairy beast,

roaming the forest, leaving a trail of hair and hockey pucks behind. Could this be Darren? Kristian Basaraba, after winning several skate boarding titles, as well as a nobel prize in chemistry, now spends most of his time hosting Sesame Street with Little Elmo.

Daryl Swanson is still behind bars after being accused of stalking. Police collected several phone lists, grocery lists, things to do lists, etc., etc., etc.! When will the lists stop Daryl?! Being cheap at Grad paid off for Dan Ozegovic. He became a multi-millionaire over night and bought the whole Gap store outlet. He changed the name from "The Gap" to "The Dan". John Hollinger did not live out his dream of becoming a famous soccer player although he did become an Elvis Presly mascot for the new soccer team, the Memphis Machines.

Olga Michailides, the Greek goddess, decided to further her broomball career with the support and encouragement of her #1 fan, little Tommy Martin. Even to this day, he still cheers her on with his famous call "OLGA".

Janet Dymichkowsky became an astronaut. On her last mission, her troops stranded her on the moon. But don't worry, she still has three hours of oxygen left.

It turns out that Crystal Tremblay's 1976 Chevette became a classic in the year 2000. She sold it for \$1 million but refuses to quit her job at Value Village because of the 50% discount. Sherri Phan, Jen Sargent, Marsha Hiew, Cathy Wong and Jeremy Kwan continue to be the Karaoke Queens and King of the China Palace. Veda Maharajah and Raiven Hansen finally landed that Pepsi commercial with the rest of the Stepteam and are touring world wide with the Michael Jackson impersonators, Rony Mathews and Steve Dhillon. Unfortunately, Raiven ended up looking like her long lost grandma, Lucil.

Ever since grad '95, Filman Zerai, (A.K.A. Fhilzi), has had a fetish with having a matching car for every outfit he owns. To the day, Fil's car collection is over the 1000 mark. Brad Crowfoot, James Mathewson, Ryan Kaehn, Rick Engels, and the rest of the senior football team continued playing together and eventually all posed for a sexy calender called "Playgirl's Rough and Tough Men".

All through high school, we thought Dana Krywulak was such a happy person but ever since she became a lawyer at the never-ending O.J. Simpson trial, there have been rumors about Prozac usage. Dana, you fooled us all! Patti Escobar and Michael Tokunaga, suprisingly, got married and have had 14 kids and counting. Oh Michael, you devil.

Susan Huculak used her "imaginative mind" to her advantage and became a steamy novelist writing such Harlequin tales like "Three's Company" and "Battle with Desire".

Dana Dagle, the girl without a large intestine,

Above: Hosts of their future show, Sean Horton, Jennifer Raaen, and Dana Dagle deliver their prophetic speech.

and Lis, (spleenless) Russell used their high school surgeries to start their career and are now showing off their scars annually at K-days. And Sean Horton . . . wasn't he the romantic, wonderful, good-looking guy at M.E.? Oh, no! That was Sean Dory. Anyway, after Jim Carey passed away, Sean took his place in the upcoming movie "Ace Ventura Part 16". That's it Folks; that's all she wrote.

- by Sean Horton, Jennifer Raaen, Dana Dagle

Banquet

Above: Though this may look like an awkward, unexplained couple, Scott Pereira and Tracy Lawrence look mysteriously great together.

Right: Ebony and ivory; the gleeful Cecilia Wong and modest Bijou Thomas "blend" together at this year's banquet.

Above: (back row) Jaret Lee, Mark Bently, Lana Buerger, Barry Coleman, Dayton Marit, Darren Reynolds, John Hollinger. (front row) Oksana Bayda, Tom Martin, Heather Harris, Janet Dymichkowski, James Leskiw.

Left: To be or not to be... I would guess, TO BE! Mike Tokunaga and and Patty Escobar together, like an "unforgettable" quote.

Answers to page 133:

Right: Oh my, Dan Ozegovic's caught between two beauties, Lana Buerger and Oksana Bayda!

Below: Looking elegant as ever, Kim Ly and Mr. Goin pose for the camera.

Above: Does Darren Reynolds seem a little uneasy? Could he be missing his cap? His buddies Dayton Merit, Barry Coleman and Michael Ljevaja all seem to be handling the loss of their caps quite well.

Right: "She looks like an angel, she walks like an angel...", but is she the devil in disguise? No, not Kim Hamilton.

Above: Grad night seems to have brought out the wild animal in Lena Bunzenmeyer. It must be the dress, it's way too dangerous!

Banquet

Top left: Paula Bennett and Tim Homeniuk, don't they make a handsome couple?

Middle left: Here the grad vocalists are preparing to sing "Gone too Soon".

Top right: Carolyn Leung, Nicole Mork, Rahima Remtulla, and Mundeep Grewal.

Above: Mark Wing, Marsha Chow and Sherry Phan all having a great time.

Left: Smile boys! David Spang, James Vanderlaan, and Mike Tokunaga.

Banquet

Above: Where's the men? These lovely ladies definitely know the meaning of sassy!

Top Left: Kareena Schnabl, Lisa Saiphoo, Cecilia Wong, Connie Wong and Chanchoura Bouphasiri smile patiently for the million cameras.

Top Right: Maria Smashnova and Pedro Rodriguez pose in a classic couples picture.

Right: Jennifer Powell and her date look smashing together. Grandma looks on in extreme joy and happiness.

Right: Kristian Basaraba, Stephen Paholek and Amarjit Panesar. The Three Stooges express their pearly whites!

Epilogue

Take a bow! The curtain closes on another school year, and ideally, the experiences you have accumulated in your one of three "acts" in high school have given you a clearer idea of your potential. We have shown the different roles that we can play when we participated in activities, whether it was being at the receiving end of the pie throwing contest or the distributing end, contributing as a member of a club, supporting school teams as a fan, or simply being a student. With luck, this yearbook has covered the year and at least one of your memorable and amusing roles well. Remember, the roles you assume should not only be for prestige; they should be ones that you feel comfortable with. Go through this book slowly, and hopefully, when you review this play again, you will be inclined to give a standing ovation.

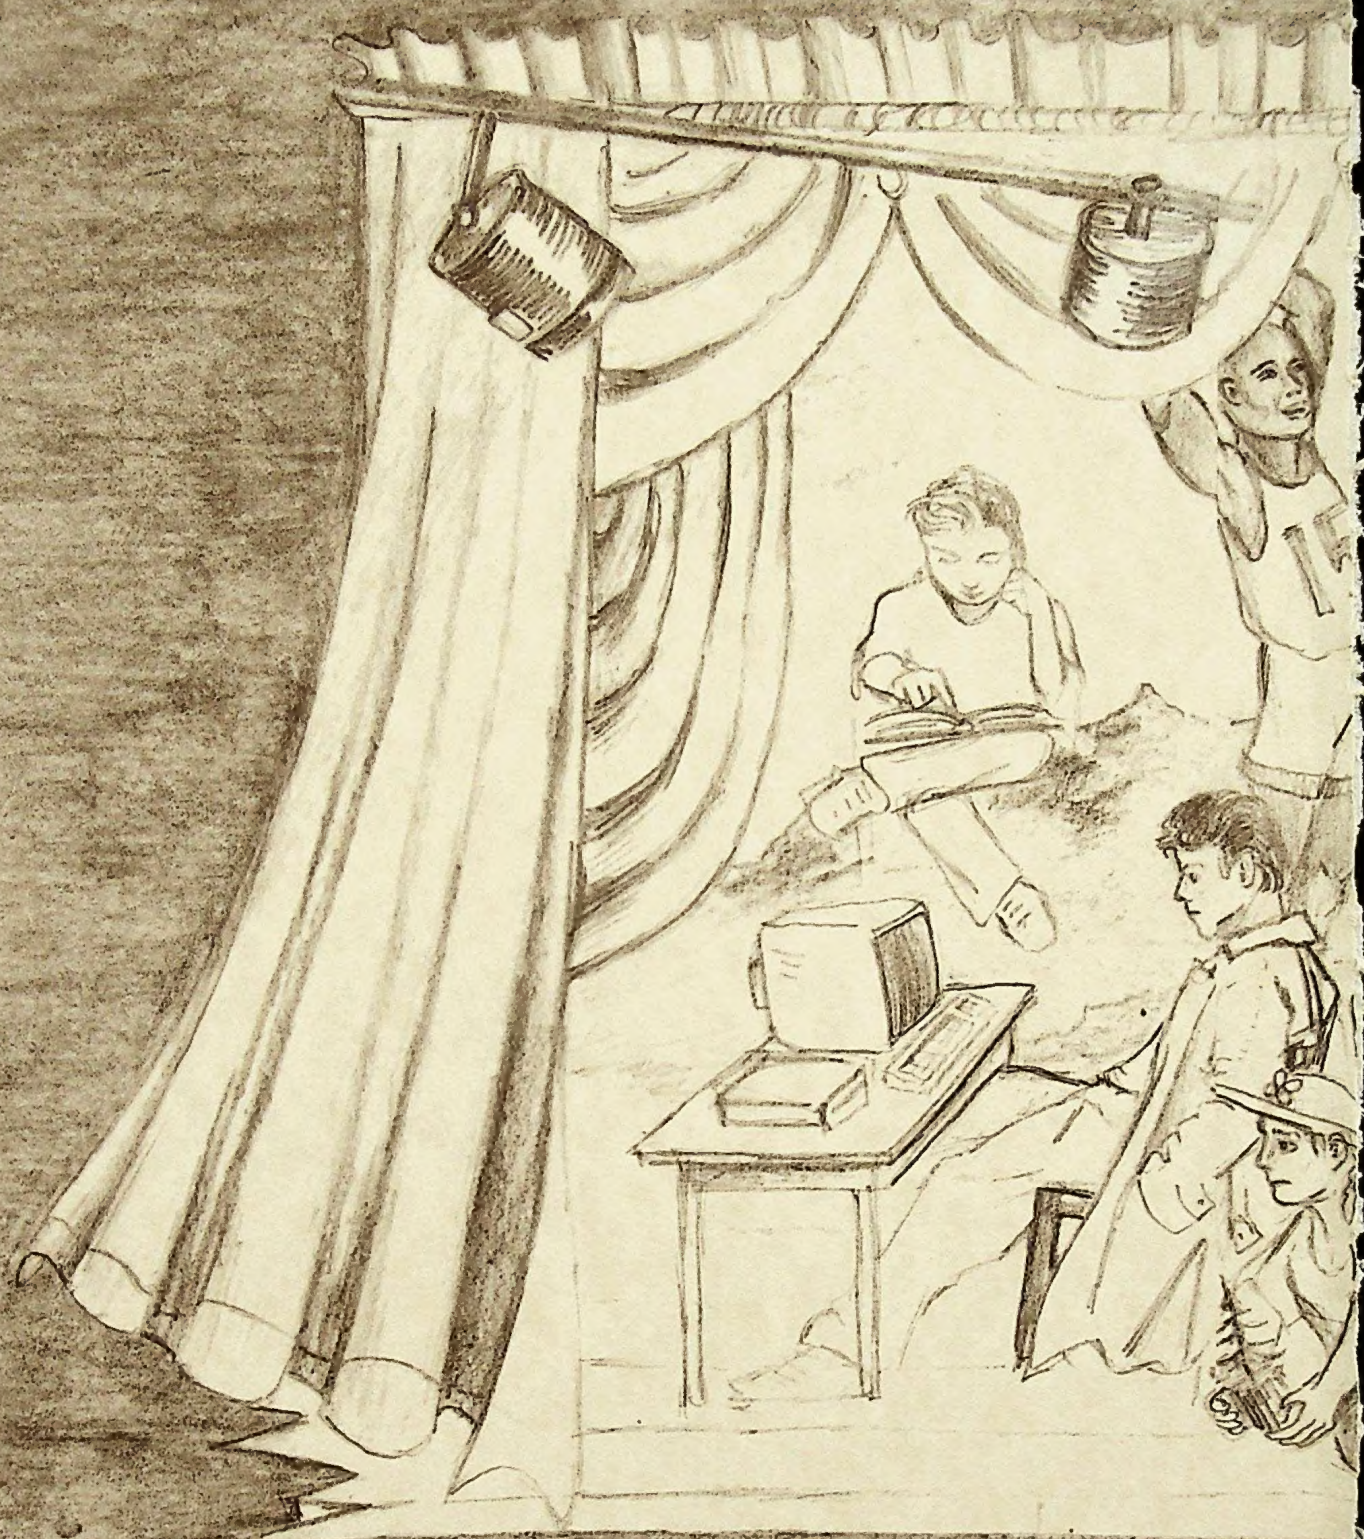

Above: "Yeah? You like my new hairstyle? The pharoah look, you know." Alois Urlep presents his unique look.

Top: The audience waits anxiously for the Lyp Sync to begin. Cathy Wong and Sherry Phan already know that they will enjoy it - and, hopefully, this yearbook too!

Above: Here's one role we never give up - one of a good friend. How excited Naviman Mayta, Feda Chaaban, Amina Slieman, Nancy Hensen, and Jamely Smilley were to see this picture!
